AGROSUPER S.A. AND SUBSIDIARIES

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF MARCH 31, 2022 (UNAUDITED) AND DECEMBER 31, 2021.

1. GENERAL INFORMATION

Agrosuper S.A. (hereinafter the “Parent Company” or the “Company”) and its subsidiary companies, make up the Agrosuper Group (hereinafter “Agrosuper” or the “Group”).

Agrosuper S.A. was founded by a public deed dated October 29, 2010, granted by the Santiago Notary of Mr. Andres Rubio Flores. The respective extract was published in the Official Gazette on December 24, 2010 and registered on page 69,043, number 48,224 of the Commerce Registry of the Santiago Property Registrar in 2010.

The Company is a privately held corporation registered in the Securities Registry under number 1084 and is regulated by the Chilean Financial Markets Commission when issuing bonds.

Agrosuper S.A. Tax ID: 76.129.263-3 has its principal domicile at Camino La Estrella No. 401, office 56, Punta de Cortés, Rancagua.

On the date the Company was incorporated its shareholders were Agrocomercial El Paso S.A. and Promotora Doñihue Limitada, with an interest of 98.48% and 1.52%, respectively.

On January 25, 2021, the amendment of the capital of Agrosuper S.A. was agreed in order to convert the capital stock from Chilean peso to U.S. dollar, due to the change in the Company's functional currency. By virtue of the foregoing, the capital stock denominated in US dollars is ThUS\$1,342,549 US dollars, divided into 23,500,376,756 common shares.

The Company is controlled by Mr. Gonzalo Vial Vial, whose Chilean identification number is 3,806,024-4, and his children Ms. Maria Cristina Vial Concha, whose Chilean identification number is 7,032,945-K, Ms. Maria del Pilar Vial Concha, whose Chilean identification number is 7,022,695-2, Ms. María José Vial Concha, whose Chilean identification number is 7,022,776-2 and Mr. Gonzalo Vial Concha, whose Chilean identification number is 7,022,663-4, through an indirect participation in the Company. These individuals participate in Agrosuper S.A. through Agrocomercial El Paso S.A. and Promotora Doñihue Limitada, as they are directly and indirectly shareholders of all the shares and rights in these companies.

Full name	Chilean ID No.	%
Gonzalo Vial Vial	3,806,024-4	1.72
María Cristina Vial Concha	7,032,945-K	24.57
María José Vial Concha	7,022,776-2	24.57
María del Pilar Vial Concha	7,022,695-2	24.57
Gonzalo del Rosario Vial Concha	7,022,663-4	24.57

The Company's purpose is to:

- a) Invest in all manner of tangible or intangible, movable, or immovable property, including the acquisition of shares, units, or rights in any company, regardless of whether they are commercial or civil, communities or associations, bonds, financial instruments, trading instruments and in general in any transferable securities and credit or investment instruments and the management and operation of these investments and their rewards or returns.
- b) Incorporate any company or association and invest in them, either as partners or shareholders, and amend and manage them.
- c) Administer, manufacture, operate and market, directly or through other people, of all manner of movable goods, especially those involved in agriculture, mining, fisheries, food, electricity, and fuel.
- d) Administer, construct, operate and market, directly or through other people, of all manner of agricultural or non-agricultural real estate, and dedicate itself to raising all kinds of animals, forestry, fruit, and agro-industry in general.
- e) Provision of all manner of services to people or legal entities, in particular to people related to the Company, which include, but is not limited to, administrative, finance, accounting, treasury, internal control, and human resources services, in Chile or abroad.
- f) Request, obtain, register, acquire, lease, license and market trademarks, brands, trade names, domain names, patents, inventions, processes, drawings, designs, know-how and other intangible assets related to intellectual and industrial property.

2. BUSINESS DESCRIPTION

2.1 Historical Review

Agrosuper S.A. manufactures and markets animal protein products made from chicken, pork, turkey, salmon and processed products. The production process is vertically integrated and is composed of animal feed factories, breeding farms, processing plants, distribution centers, marine farms and commercial offices. This allows the Company to provide a broad portfolio of products to customers and consumers in Chile and the world.

Agrosuper began in 1955 by producing eggs in Doñihue, in the Sixth region, and five years later its founder, Mr. Gonzalo Vial, decided to expand the business into producing and selling live chickens.

The business was expanded in 1974 to include processing and selling chicken meat, which launched the brand Super Pollo.

In 1983, a significant opportunity to expand production was identified by entering the pork business and drawing on experience raising live animals and making efficient use of available infrastructure. The business was expanded to include fattening, processing and selling this meat under the brand Super Cerdo.

During 1989 the Company entered the sausage business as this opened up an opportunity to add greater value to chicken and pork meat and take advantage of synergies in distribution and marketing. Farming and selling trout and salmon began that same year through the incorporation of La Firdos Limitada, which became a pioneer in the Puyuhuapi Channel, in the Eleventh region.

In 1990, the business began its international expansion by directly selling its products on the export market.

1996 saw an increase in the consumption of turkey in Chile and worldwide. So Agrosuper invested in Sopraval, in order to take advantage of its experience in raising animals. It achieved significant business synergies, based on its extensive distribution chain and took a leading role in marketing their products.

In 2000, Agrosuper acquired Pollos King with the objective of growing its share of the local market, which enabled it to attract a wider variety of customers.

The Los Cipreses School was created in 2002 by the Agrosuper Foundation. It is located in Lo Miranda, in Doñihue municipality, and provides an excellent education that is free of charge to more than 900 children. The school achieved an average of 610 points in the university entrance exams (PTU) for 2021. It was ranked in first place within the O'Higgins region and in the top 16 nationwide within the subsidized private schools segment.

The Company began to open its own sales offices in its principal global markets in 2002, in order to provide personalized customer service and create alliances with local distributors. It initially started

in Italy, then in the United States in 2003, in Japan in 2004, in Mexico in 2005, and in Brazil and in Hong Kong and Shanghai in China in 2012.

A fire broke out at the San Vicente de Tagua Tagua poultry processing plant in 2006, which resulted in reconstruction that was completed in August 2007, when the plant resumed functioning as normal.

Agrosuper S.A. was created in 2010, to manage the protein business and the first professional Board of Directors was formed, thus strengthening the Company's corporate governance.

Since 2011 it has completed significant projects that have enabled it to advance toward full integration of the production cycle in the salmon business, with sanitary standards well above the average for the industry, which includes a processing plant at Quellón, hatcheries and smolt facilities, and a fish feed plant at Pargua.

During 2011 Agrosuper acquired the Sopraval shareholding owned by the Allende family, which brought its interest up to 81.2%. At the same time, the Company launched a successful Take-over bid for the remaining shares, finally owning 99.8%.

In December 2011, bonds were placed totaling UF5,000,000 with a term of 21 years, in accordance with the contractual placement conditions, from the bond line registered with the Superintendency of Securities and Insurance (now the Financial Market Commission), in order to finance future projects.

During 2012, the Board of Directors of Agrosuper S.A. indefinitely suspended the Huasco Project with an associated cost of US\$480 million, as the environmental authority had amended its Environmental Approval, which limited the financial viability of the project and created uncertainty regarding its development.

A fire completely destroyed the poultry processing plant in the Lo Miranda district in 2014. Agrosuper completely reconstructed it, to ensure that the plant could return to normal and resume supplying its products to customers and consumers.

The confined composting system in the productive sector of La Estrella was inaugurated in 2015, which transforms pig slurry, a mixture of manure, urine and water, into fertilizer for agricultural soil, while minimizing odors. This reduced the emission of bad odors by 98% in the Lago Rapel basin.

Agrosuper acquired 67% of Empresas AquaChile S.A. from its majority shareholders in August 2018, and launched a take-over bid for the remaining shares. This transaction was approved by the National Economic Prosecutor's Office on December 7, 2018 and was completed and declared successful on January 20, 2019, as Agrosuper had acquired 99.71% of the shares with voting rights. The takeover was completed on January 22, 2019 with the first Board meeting for the new Directors of Empresas Aquachile S.A. Subsequently, the dissenting shareholders exercised their right to withdraw, in accordance with Article 71 bis of Corporations Law, and sold their shares to the controlling shareholder, leaving it directly and indirectly with all the voting shares.

The Agrosuper subsidiary Los Fiordos acquired all the assets of the Salmon Farming Division of Grupo Pesquero Friosur in September 2018, which included the acquisition of a hatchery, 12 farming sites and 40 concessions in the Aysén Region. This transaction was approved by the National Economic Prosecutor's Office on October 2, 2018 and completed in December 2018.

In September 2018, bonds were placed totaling UF4,000,000 with a term of 10 years and UF1,500,000 with a term of 23 years, both in accordance with their contractual placement conditions, both from the bond line registered with the Superintendency of Securities and Insurance (now the Financial Market Commission).

Empresas AquaChile S.A. will consolidate the entire aquaculture segment following the transfer of Los Fiordos interest in AquaChile during 2020, and its main purpose is to segment its meat and salmon products, which will generate efficiencies in managing the information used for decision making, produce reports in a timely manner and take advantage of all the synergies arising from concentrating the Group's salmon companies.

On January 20, 2022, bonds were placed on the international market for ThUS\$500,000 with a 10-year term and a placement rate of 4.6% per annum. The issue complied with Rule 144A and Regulation S of the Securities and Exchange Commission under the Securities Act of 1933 of the United States of America.

2.2 Segments

The Company has defined three operating segments, which were defined based on its organizational structure, the nature of its business activities, the management of these segments (Meat, Aquaculture and Others) and the way in which information is analyzed for decision making.

These operating segments have separated financial information and the results of their operations are periodically reviewed by the chief operating decision maker of each segment to decide on the allocation of resources and to evaluate their performance.

Meat Segment

This segment includes production, processing, distribution, and marketing of meat products based on chicken, pork, turkey, and processed foods, for domestic and export markets. These products are sold under the Agrosuper, Super Pollo, Super Cerdo, Sopraval, La Crianza, King and Super Beef brands.

This business process is vertically integrated from producing the live animal through to marketing its products on national and international markets, through an extensive distribution chain.

The production process starts by importing the first generation of live animals, which enables the Company to locally develop two generations of chickens (breeders and broilers), three generations of pigs (grandparents, breeders and fatteners) and one generation of turkeys (eggs are directly imported from breeders). This secures supplies at a key stage in the chain, which leads to the breeding and fattening stages. This whole process is performed at its own facilities. The Company has food plants and complete sewerage treatment systems that support the productive cycle.

The fattening stage is followed by the processing stage. These plants use the most advanced technology to prepare many fresh and frozen products with various features, depending on the target market or customer. This process secures complete traceability, with quality and biosafety standards that are the highest in the industry.

Processed foods are mainly based on chicken, pork, turkey, salmon and beef. This unit is focused on developing new business segments, by introducing new products with high added value that are convenient, practical and healthy, based on the latest consumption trends.

Therefore, the sanitary status of all its processes, the excellence of its environment, the bio-safety of its operations and the safety of its products are all closely controlled. Its productive processes have been certified as meeting various quality standards, which include: ISO 9001 and HACCP (product quality), BRC (British Retail Consortium), ISO 14001 (environmental management), APL (clean production agreement), BPA (good agricultural practices) and PABCO (animal processing plants under official certification). All these certificates of compliance with quality standards enable it to reach more demanding global markets, such as the North American, European and Asian markets.

Domestic distribution is managed by 26 sales offices throughout the country, which enables it to reach over 300 communities with its products, which represents over 98% of the country. International distribution is managed through commercial offices in Atlanta, USA; Mexico City, Mexico; Genoa, Italy; Shanghai and Hong Kong, China; and Tokyo, Japan.

Aquaculture Segment

This segment includes producing, processing, distributing and marketing products based on Atlantic and Pacific salmon in domestic and export markets. These products are sold under the Aqua and Verlasso brands.

This business process is vertically integrated from producing eggs through to marketing its products on national and international markets, through an extensive distribution chain.

The Company has its own breeding program that produces eggs and smolts, which secures a wide safety margin at this key stage in the production chain. This is followed by the fattening process, using only its own concessions and fattening centers. The Company has storage facilities on land and plants that use the latest technology, which process all production and prepare a range of products with various features depending on the target market or customer. This process ensures complete traceability, with quality and biosafety standards that are the highest in the industry.

Therefore, the sanitary status of all its processes, the excellence of its environment, the bio-safety of its operations and the safety of its products are all closely controlled at every stage. The Company has certified compliance with various quality standards: ISO 9001 and HACCP (product quality), ISO 14001 (environmental management), OHSAS 18001 (occupational safety), IFS (International Food Standard) Level v5, BRC (British Retail Consortium) v5, Global GAP and BAP (good practices in agriculture and aquaculture) and Kosher Certification. All these certificates of compliance with quality standards enable it to reach more demanding global markets, such as the North American and Asian markets.

Segment Other

This segment mainly incorporates the provision of distribution services to third parties, using the installed logistics capacity, with a minimal investment of resources in addition to the usual management

3. BASIS OF PRESENTATION OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

3.1 Basis for the interim consolidated financial statements

These interim consolidated financial statements include assets, liabilities, income, equity and cash flows of the Company and its subsidiaries. The balances and effects of significant transactions between subsidiaries have been eliminated on consolidation together with unrealized income. The participation of minority investors has been recognized within non-controlling interests in the statements of financial position and of comprehensive income.

When preparing the interim consolidated statement of financial position, Management has utilized its best understanding and knowledge to apply standards and interpretations to current facts and circumstances, which may be subject to change. For example, additional amendments to standards or interpretations may be issued by the International Accounting Standards Board (IASB) that may change the current standards.

Net income, conversion differences and dividends declared by subsidiaries and affiliated companies are recognized in equity in each reporting period.

3.2 Basis for the preparation and presentation of the financial statements

These interim consolidated financial statements comprise statements of financial position as of March 31, 2022 (audited) and December 31, 2021, the related statements of income by function and comprehensive income, statements of changes in equity and statements of cash flow, direct method, for the periods from January 1 to March 31, 2022 and 2021. They have been prepared in accordance with standards and instructions issued by the Financial Market Commission (CMF), which are consistent with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of these consolidated financial statements includes estimates made by Group Management, to quantify various assets, liabilities, revenues, expenses and commitments. These estimates basically refer to:

- Useful lives of assets
- Asset impairment
- Allowance for doubtful accounts receivable
- Fair value of biological assets
- Net realizable value of inventories
- Fair value of derivative instruments

Although these estimates have been based on the best information available at the date these interim consolidated financial statements were issued, it is possible that events may occur in the future that will require a change in future periods, which would occur prospectively, and recognize the effects of such changes in the corresponding consolidated financial statements.

3.3 Changes in accounting policies

For an easier comparison, certain least reclassifications have been made to the interim consolidated financial statements corresponding to the period 2021.

The interim consolidated financial statements of the Company and its subsidiaries do not present other significant changes in accounting policies and estimates as compared to the previous year and have been prepared in accordance with IFRS, with the principles and criteria applied being consistent.

4. PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies used to prepare these interim consolidated financial statements are described as follows. These policies have been defined in accordance with IFRS, and have been applied uniformly throughout all the years presented in these interim consolidated financial statements.

4.1 Presentation of Financial Statements

Interim Consolidated Statements of Financial Position

Agrosuper S.A. and its subsidiaries have classified balances as current and non-current for the purposes of presenting its interim consolidated statement of financial position.

Interim Consolidated Statements of Comprehensive Income

Agrosuper S.A. and its subsidiaries have presented its consolidated statements of income classified by function and interim consolidated statements of comprehensive income.

Interim Consolidated Statements of Cash Flow

Agrosuper S.A. and its subsidiaries have presented its statements of cash flow using the direct method.

4.2 Accounting period

The interim consolidated financial statements of Agrosuper S.A. and its subsidiaries are for the periods described below.

	CUMULATIVE		QUARTERLY	
	01.01.2022 03.31.2022	01.01.2021 12.31.2021	01.01.2022 03.31.2022	01.01.2021 12.31.2021
Statements of financial position	X	X		
Statements of changes in equity			X	X
Statements of net income by function			X	X
Statements of comprehensive income			X	X
Statements of cash flow			X	X

4.3 Consolidation basis

The interim consolidated financial statements of Agrosuper S.A. (the Company) and its subsidiaries (collectively, the Group) include the assets, liabilities, income, expenses and cash flows of the Company and its subsidiaries.

The minority shareholders share of equity and net income of the consolidated subsidiaries is presented in “Equity attributable to non-controlling interests” and “Net income attributable to non-controlling interests” in the interim consolidated financial statements.

The accounting policies and procedures used by Agrosuper Group companies have been aligned with the parent Company, in order to present interim consolidated financial statements using standardized valuation policies.

The financial statements of dependent companies whose functional currency is different from the presentation currency are converted using the following procedures:

- a) Assets and liabilities are converted using the prevailing exchange rate on the reporting date.
- b) Items in the income statement are converted using the average exchange rate for the period.
- c) Equity is held at the historical exchange rate at the date of acquisition or contribution and at the average exchange rate at the date of generation in the case of retained earnings. Exchange differences attributable to the Controller that arise on the conversion of financial statements is recorded under the heading “Exchange differences on conversion” within equity.

4.3.a) Subsidiaries - A subsidiary is an Company where Agrosuper S.A. can control its operating and financial policies, in order to obtain a return on its business. This control is generally, but not always, defined as direct or indirect ownership of over 50% of rights in the Company. Companies are also consolidated using this method even when this ownership share has not been reached, when it is understood that its business is run for the benefit of Agrosuper S.A., who is exposed to all its risks and rewards. The interim consolidated financial statements include all assets, liabilities, income, expenses, and cash flows of the Company and its subsidiaries after eliminating inter-company balances and transactions between Group companies, as indicated in IFRS 10.

The table below details the direct and indirect subsidiaries that have been consolidated:

Chilean ID number	Company	Relationship to Parent company	Country	Functional Currency	% Interest as of 03.31.2022			% Interest as of 12.31.2021		
					Direct	Indirect	Total	Direct	Indirect	Total

- a) On January 29, 2021, the share capital of Agrícola Super Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$338,511,881.82
- b) On January 29, 2021, the share capital of Agrosuper Comercializadora de Alimentos Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$95,869,970.29
- c) On January 29, 2021, the share capital of Comercializadora de Alimentos Lo Miranda Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$369,184.89
- d) On January 29, 2021, the share capital of Agrocomercial AS Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$1,254,476,470.62

- e) On January 29, 2021, the share capital of Agro Tantehue Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$735,058.68
- f) On January 29, 2021, the share capital of Agrícola Purapel del Maule Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$19,752,862.05
- g) On January 29, 2021, the share capital of Procesadora de Alimentos del Sur Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$26,325,444.26
- h) On January 29, 2021, the share capital of Faenadora San Vicente Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$8,296,776.68
- i) On January 29, 2021, the share capital of Faenadora Lo Miranda Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$15,777,678
- j) On January 29, 2021, the share capital of Elaboradora de Alimentos Doñihue Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$1,913,768.41
- k) On January 29, 2021, the share capital Transport AS Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$3,635,980.03
- l) On January 29, 2021, the share capital of Inversiones Agrosuper Internacional Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$3,877,940.17
- m) On January 29, 2021, the share capital of Servicios de Marketing AS Limitada was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$291,677.95
- n) On January 29, 2021, the share capital of Inversiones Sagunto S.A. was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became US\$1,125,254.94
- o) On February 16, 2021, there was a change in the shareholders of Inversiones Salmones Australes SpA, as Agrosuper SpA transferred to Empresas Aquachile S.A. all the shares it held in Inversiones Salmones Australes SpA. These were 14,135 shares and they represented a 0.01% interest. Accordingly, Empresas Aquachile S.A. now owns all the shares of Inversiones Salmones Australes SpA.

- p) On March 3, 2021, Exportadora Los Fiordos Limitada amended its bylaws to incorporate Inversiones Salmenes Australes SpA as a shareholder, as a result of a merger on December 28, 2020, where Pesquera Los Fiordos Limitada was absorbed. Accordingly, Articles Four, Six, Six, Nine and Sixteen of the Company's bylaws were amended. The shareholders of Exportadora Los Fiordos Limitada are: a) Inversiones Salmenes Australes SpA with a 99.99% interest; and b) Comercializadora de Alimentos Lo Miranda Limitada with a 0.01% interest.
- q) On March 16, 2021, there was a change in the shareholders of Exportadora Los Fiordos Limitada. Comercializadora de Alimentos Lo Miranda Limitada transferred the shares it held in that company to Aquachile S.A., which gave the latter a 0.01% interest in Exportadora Los Fiordos Limitada. The transfer to Inversiones Salmenes Australes SpA was approved. The shareholders of Exportadora Los Fiordos Limitada are: a) Inversiones Salmenes Australes SpA with a 99.99% interest; and b) Aquachile S.A. with a 0.01% interest. The bylaws for Exportadora Los Fiordos Limitada were consolidated.
- r) On March 29, 2021, the share capital of Sopraval SpA was converted from Chilean pesos to US dollars, to match the change in the Company's functional currency. Therefore, its share capital became ThUS\$45,097,180.97 divided into 838,414,077 common shares.
- s) On August 11, 2021, it was agreed to amend Antarfish SpA. by making Empresas Aquachile S.A. responsible for its registered office and administration.
- t) On August 11, 2021, it was agreed to transform Antarfood S.A. into a simplified limited liability company and change its name to Procesadora Mar del Sur SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its business purpose, registered office and administration.
- u) On August 11, 2021, it was agreed to transform Aquachile S.A. into a simplified limited liability company and change its name to Aquachile SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its registered office and administration.
- v) On August 11, 2021, it was agreed to transform Aquainnovo S.A. into a simplified limited liability company and change its name to Aquainnovo SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its administration.
- w) On August 11, 2021, it was agreed to transform Laboratorio Antares S.A. into a simplified limited liability company and change its name to Laboratorio AquaChile SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its administration.
- x) On August 11, 2021, it was agreed to change the name of Procesadora Aguas Claras SpA to Procesadora Calbuco SpA. Its registered office was also changed.

- y) On August 11, 2021, it was agreed to transform Piscicultura Aquasan S.A. into a simplified limited liability company and change its name to Piscicultura Codinhue SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its registered office and administration.
- z) On August 11, 2021, it was agreed to change the name of Salmones Cailin SpA to Procesadora Cailin SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its administration.
- aa) On August 11, 2021, it was agreed to change the name of Salmones Maullin Limitada to AquaChile Maullin Limitada.
- bb) On August 11, 2021, it was agreed to transform Servicios de Acuicultura Acuimag S.A. into a simplified limited liability company and change its name to AquaChile Magallanes SpA. It was also agreed to make Empresas Aquachile S.A. responsible for its registered office and administration.
- cc) On November 15, 2021, an Extraordinary Shareholders Meeting of Sopraval SpA increased its share capital from US\$45,097,180.97 divided into 838,414,077 ordinary, nominative shares with no par value, to US\$206,626,528.18, by issuing 3,841,450,534 ordinary, nominative shares with no par value
- dd) On March 31, 2022, Empresas Aquachile S.A. reported a material event to the CMF that on that date all the shares in the subsidiary GRUPO ACI S.A. and its subsidiaries in Costa Rica that are all engaged in the production and sale of tilapia, have been sold to AQUAFOODS GROUP S.A., a subsidiary of Industrias Martec incorporated in Puntarenas Province, Quepos, Costa Rica. Approval was obtained from the Costa Rican antitrust authority for this transaction on March 17, 2022. The price initially agreed was ThUS\$5,400, and a subsequent price adjustment of ThUS\$600, as stipulated in the sale agreement, brought the final price for the transaction to ThUS\$6,000. The effect on the income statement was a loss as of December 31, 2021, of ThUS\$36,989, while the ThUS\$600 price adjustment was recognized in March 2022 in other income.

4.3.b) Affiliates or associates

An associate is company over which Agrosuper S.A. can exercise significant influence, but not control nor joint control, as it can participate in decisions regarding its operational and financial policies. The Group's share of its associates' net assets, after-tax net income and post-acquisition reserves is included in the financial statements. This requires initially recording the investment at cost and then adjusting the book value of the investment in subsequent periods to reflect the Group's share of the associate's net income, less impairment of goodwill and other changes in the associate's net assets, such as dividends.

4.3.c) Acquisitions and disposals

The net income from businesses acquired during the year is included in the consolidated financial statements from the effective date of acquisition. The net income of businesses sold during the year is included in the consolidated financial statements for the year until the effective date of disposal. Gains or losses upon disposal are calculated as the difference between the income obtained for the sale (net of expenses) and the net assets attributable to the interest that has been sold.

4.3.d) Transactions and non-controlling interests

Agrosuper S.A. applies the policy of considering transactions with non-controlling interests as transactions with Group shareholders. When acquiring a non-controlling interest, the difference between the amount paid and the share of the book value of that company's net assets is recorded in equity. Gains and losses on reductions in non-controlling interests, while retaining control, are also recorded in equity.

4.4 Functional and presentation currency

IAS 21 requires each entity that prepares financial statements in accordance with International Financial Reporting Standards to define the functional currency that measures the financial effects of its transactions. Each entity has to choose its functional currency according to IAS 21, which is the currency of the entity's primary economic environment.

Monetary assets and liabilities denominated in foreign currencies are recognized at the closing exchange rate for each period. Any changes between their original value and their closing value is recognized in the interim consolidated statement of comprehensive income under exchange differences, except if these changes are deferred in equity, such as cash flow hedges, which are recognized in other comprehensive income.

Assets and liabilities for subsidiaries with a functional currency other than the US dollar are converted to this currency at the exchange rate on the closing date of the financial statements on consolidation, and income statements are converted using the average exchange rate. Exchange differences on conversion arising on the net assets of these companies are recognized in equity in a separate conversion reserve within other reserves.

The functional currency of the entity shall reflect the underlying transactions, events and conditions that are significant to the entity. Consequently, once the functional currency has been chosen, it cannot be changed unless there is a change in such transactions, events or conditions.

When there is a change in the entity's functional currency, the entity shall apply the conversion procedures applicable to the new functional currency prospectively from the date of change.

4.5 Conversion basis

Assets and liabilities in UF, Chilean pesos, Euros, Mexican pesos, Japanese yen, Pounds Sterling and Brazilian reals have been converted to US dollars at the prevailing exchange rates on the closing date of these financial statements, as detailed below:

Currency	03.31.2021	12.31.2021
	US\$	US\$
Unidad de Fomento (UF)	40,26465	40,88942
Chilean pesos	0,00127	0,00141
Euro	1,10877	1,22835
Japanese yen	0,00822	0,00968
Pound sterling	1,31423	1,36036
Brazilian real	0,21132	0,19317
Mexican peso	0,05029	0,05018
Hong Kong dollar	0,12767	0,12900
Peruvian sol	0,27215	0,27619
Chinese yuan	0,15749	0,15365

Exchange differences and inflation indexation are charged or credited to net income according to IFRS, except for the conversion of subsidiaries financial statements that use a functional currency other than the US dollar, which are recorded in other reserves within equity.

4.6. Trade and other receivables

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. Those assets that will mature in less than 12 months are classified as current assets. Those assets that will mature in greater than 12 months are classified as non-current assets.

The entire trade receivables portfolio is comprised of sales on credit and the Company applies the following hedging policy to it:

Domestic Market

Every credit customer has an individual line of credit approved by the Insurance Company regardless of the credit term. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the insurance company.

Customers without credit must pay immediately, so no impairment provision is required.

International Market

Approximately 87.3% of sales are to customers with an individual line of credit approved by the insurance company. This insurance policy applies a deductible of 10% to each receivable, and

the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the insurance company.

Customers without an approved line of credit with an insurance company are:

- Customers who guarantee and pay with Letter of Credit, who represent approximately 6.9% of sales. In these cases, the customer's bank pays the national bank that has confirmed the letter of credit, in order to finally pay Agrosuper S.A. or AquaChile S.A.
- Customers who prepay or pay against a copy of the documents (CAD) represent 0.3% of sales. In these cases, the customer pays between 10% and 50% in advance and the difference is paid when the product arrives. However, the documentation required to clear customs is released after the customer has paid.
- Customers who pay against a copy of the documents (CAD) represent 4.1% of receivables, where the documentation required to clear customs is released after the customer has paid.
- Customers with bank collection of the invoice upon product arrival represent 0.8% of receivables.
- Customers who fully prepay before the product is dispatched represent 0.6% of receivables.

4.7 Property, Plant and Equipment

Property, Plant and Equipment is stated at cost, excluding periodic maintenance costs, and less accumulated depreciation and accumulated impairment losses. This cost includes the cost of replacing components of property, plant and equipment, if recognition criteria are met.

The cost of major maintenance is added to the book value of Property, Plant and Equipment as a replacement, if recognition criteria are met. Accounting policies and criteria are applied consistently to additional components that affect the valuation of plant and equipment and their corresponding depreciation.

Any gain or loss from the disposal or withdrawal of an asset is calculated as the difference between the sales price and the asset's book value and is recorded in net income for the period.

The Company reviews the book value of its assets to assess whether there is any indication that the book value may not be recoverable, in accordance with IAS 36. If identified, the recoverable value of the asset is estimated to calculate the extent of the impairment. Assets that do not generate independent cash flows are grouped into appropriate cash generating units (CGU) for impairment testing purposes.

The recoverable amount is the greater of fair value less selling costs, and value in use. Value in use is calculated as the present value of future cash flows discounted at a rate associated with the evaluated asset.

If the recoverable value of an asset is estimated to be less than its value book, the book value is reduced to the recoverable value.

Assets that have an indefinite useful life, for example, land, are not amortized and are tested for impairment on an annual basis. Amortized assets are tested for impairment whenever an event or change in circumstances indicates that their book value may not be recoverable.

Impairment losses can be reversed, but are limited to losses recognized in previous periods, in such a manner that the book value becomes the same as if these impairment adjustments had never been made.

4.8 Depreciation

Components of Property, plant and equipment are depreciated on a straight-line basis by distributing the asset's acquisition cost less its estimated residual value over the asset's estimated useful life. The following table presents the main components of Property, plant and equipment and their useful lives:

	Financial useful life Range in years
Buildings	40 and 50
Constructions and infrastructure works	20 and 50
Machinerand and equipment	10 and 15
Information technology equipment	3 and 5
fixed installations and accessories	10 and 20
Motor vehicles	5 and 10

Property, plant and equipment is depreciated on a straight-line basis over its useful life. The useful lives of the assets are reviewed annually to assess whether the initial conditions have changed. Land is recorded separately from any buildings or infrastructure built on it, and has an indefinite useful life, so is not depreciated.

The Group tests Property, plant and equipment for impairment at least once each year. Any reversal in impairment losses is recorded in net income, except assets that have been previously revalued whose reversal is recorded in equity.

4.9 Borrowing costs

The Group's property, plant and equipment include borrowing costs incurred to construct or acquire the asset. These costs are capitalized until the assets are in condition to be used, in accordance with IAS 23. Capitalized borrowing costs use the weighted average interest rate of the related loans.

4.10 Goodwill

Goodwill generated upon consolidation represents the excess of the acquisition cost over the Group's share of the fair value of assets and liabilities, including identifiable contingent assets and liabilities of a subsidiary as of the acquisition date.

The valuation of assets and liabilities acquired in taking control of a company is finally calculated based on the fair value of its assets and liabilities. The difference between the acquisition price and the fair value of the acquired company is recorded as goodwill.

Goodwill is not amortized, but at each reporting date the respective investment is evaluated for evidence of impairment that might reduce its recoverable value to below its book value, which would trigger an annual impairment provision.

The Company's assumptions to calculate the recoverable value of its assets during the period are as follows.

- a. Identification of acquired goodwill and its recognition when it complies with IAS 38 Intangible Assets. Revaluation is based on changes in market conditions since the last valuation, the acquirer's plans and evaluation of potential impairment. This includes brands already registered with the acquirer, concessions, and water rights recognized by AquaChile.
- b. Valuation of biomass at fair value according to the method validated by the acquirer. Atlantic salmon and Coho at fair value when it reaches 1.0 kg. While they weigh less than this weight, their fair value is accumulated cost less impairment. The biomass in sea water is classified as short term, with biomass in freshwater as long term.
- c. Valuation of property, plant and equipment not recently valued.
- d. Investments recognized using the equity method are recognized at fair value.
- e. Goodwill is the excess of the acquisition price over the net assets at fair value.

To support that the recoverable amount of the assets is greater than the amount paid and therefore there is no indication of impairment of goodwill, management has performed a Discounted Cash Flow using a 5-year time horizon and has performed an assessment of the Value in Use of Assets versus the Book Value of each goodwill.

4.11 Intangible assets other than goodwill

Separately acquired intangible assets other than goodwill are initially recognized at acquisition cost. The cost of intangible assets acquired in a business combination is their fair value as of the date of acquisition. After initial recognition, intangible assets are recorded at cost less any accumulated amortization and any accumulated impairment loss.

The useful lives of intangible assets are defined as finite and indefinite. Intangible assets with indefinite useful lives are tested for impairment annually either as an individual asset or as a Cash Generating Unit (CGU).

Intangible assets with finite useful lives are amortized over their useful life and are tested for impairment each time there is an indication that the intangible asset may be impaired. The amortization period and amortization method for an intangible asset with a finite useful life are reviewed at least at every reporting date. Expected changes in useful life or the expected consumption pattern of future financial returns are recognized by changing the amortization period or amortization method, as appropriate, and treated as changes in accounting estimates. Amortization expenses for intangible assets with finite useful lives are recognized in the income statement, which is consistent with the function of an intangible asset.

The Company's main intangible assets are:

(a) Aquaculture concessions: Aquaculture concessions acquired from third parties are recognized at historical cost and their amortization is subject to the results of annual impairment testing.

(b) Research and development expenses: Research costs are expensed as incurred. An intangible asset that arises from developing an individual project is recognized only when Agrosuper S.A. and its subsidiaries can demonstrate the technical feasibility of completing the intangible asset so that it will become available for use or sale, their intention to complete it and their ability to use or sell the asset, how the asset will generate future financial returns, the availability of resources to complete the asset and the ability to reliably measure expenditure during its development.

(c) Water rights: Water rights are initially recognized at their acquisition cost and are not amortized. These assets are tested for impairment every year, or when there are indications of a possible loss in value.

(d) Commercial brands: The Company's brands are intangible assets with indefinite useful lives that are recognized at historical cost, less any impairment losses. These assets are tested for impairment every year, or when there are indications of a possible loss in value.

(e) IT projects and other intangible assets: These intangible assets correspond mainly to IT developments and licenses :These computer assets are capitalized at the value of the costs incurred in acquiring them and preparing them for use with the specific software. These costs are amortized over their estimated useful lives (4 to 8 years). Software maintenance costs are recognized as an expense in the period in which they are incurred.

4.12 Investments in associates

Investments by Agrosuper S.A. and its subsidiaries in associates are accounted for using the equity method. An associate is a company over which the Company has significant influence that is not a subsidiary or a joint venture. Under the equity method, the investment in the associate is

recorded in the statement of financial position at cost plus post-acquisition changes based on the Company's share of the associate's net assets.

The income statement reflects the Company's share in the associate's operating results. When a change has been recognized directly in the associate's equity, the Company recognizes its share of any change and discloses it, if necessary, in the statement of changes in equity. Gains and losses on transactions between the Group and the associate are eliminated on consolidation based on the participation in the associate.

The reporting dates of associates are identical to those of Agrosuper S.A. and its subsidiaries and the associate's policies agree to those used by the Company for equivalent transactions and events under similar circumstances.

4.13 Impairment of non-financial assets

The Company and its subsidiaries assess whether there are indicators that a non-financial asset may be impaired at each reporting date. If such indication exists, or when there is an annual impairment testing requirement, the asset's recoverable value is estimated. An asset's recoverable value is the greater of the fair value of an asset or its cash generating unit, less its selling costs, and its value in use, and is calculated for an individual asset unless the asset does not generate cash inflows that are clearly independent from those of other assets or asset groups. When the book value of an asset exceeds its recoverable value, the asset is considered to be impaired and is written down to its recoverable value.

When assessing value in use, estimated future cash flows are discounted to present value using a before-tax discount rate that reflects current market assessments for the time value of money and the asset's specific risks. An appropriate valuation model is used to calculate fair value less selling costs.

Impairment losses of continuing operations are recognized in the income statement within expense categories consistent with the function of the impaired asset, except for previously revalued properties where the revaluation was recorded in equity. In this case, impairment is also recognized in equity, but limited to the value of the prior revaluation adjustment.

An assessment is made for assets at each reporting date as to whether there are indicators that the previously recognized impairment loss may no longer exist or may have decreased. If such an indication exists, the Group estimates the asset's recoverable value. A previously recorded impairment loss is reversed only if there has been a change in the estimations used to determine the recoverable value since the last impairment loss was recorded. If this is the case, the asset's book value is increased to its recoverable value. This increased value cannot exceed the asset's book value, net of depreciation, if the impairment loss had never been recognized in prior years. This reversal is recognized in the income statement unless an asset has been revalued, in which case the reversal is treated as an increase in the revaluation.

The following criteria are also applied in assessing impairment of specific assets:

- a) **Goodwill** - Goodwill is reviewed annually to determine whether any impairment exists, or more often if events or changes in circumstances indicate that its book value may be impaired.

Impairment is determined for goodwill by evaluating the recoverable value of the cash generating unit (or group of cash generating units) to which the goodwill is allocated. When the recoverable value of the cash generating unit (or group of cash generating units) is less than the book value of the cash generating unit (or group of cash generating units) to which goodwill has been allocated, an impairment loss is recorded. Impairment losses relating to goodwill cannot be reversed in future periods.

The Company and its subsidiaries perform annual impairment testing annually at each reporting date.

- b) **Intangible assets with indefinite useful lives** - The impairment of intangible assets with indefinite useful lives is tested annually at each reporting date, either individually or by cash-generating unit, as appropriate.
- c) **Investments in associates** - After applying the equity method, the Company determines whether an additional impairment loss must be recognized for investments in associates. The Company and its subsidiaries determine whether there is objective evidence that the investment in the associate is impaired at each reporting date. In this case, the Group calculates the impairment as the difference between the associate's fair value and its acquisition cost, and recognizes this expense in the income statement.

4.14 Financial assets

The financial assets within the scope of IFRS 9 are classified at amortized cost, at fair value through profit and loss, or through equity, as appropriate.

When financial instruments are initially recognized, they are measured at fair value plus (in the case of investments not at fair value through profit or loss) directly attributable transaction costs.

The Company evaluates whether there are embedded derivatives in contracts or financial instruments to determine if their characteristics and risks are closely related to the principal contract provided the set is not being accounted for at fair value. If they are not closely related, they are recorded separately and changes in value are accounted for directly in the statement of comprehensive income.

The Company and its subsidiaries classifies its financial assets after initial recognition and, when permitted and appropriate, reassesses this classification as of each reporting date. All regular purchases and sales of financial assets are recognized on the trade date, which is the date on which the company becomes committed to the trade. Regular purchases and sales of financial assets are those that require the delivery of assets within the time frame generally established by regulation or market convention. The following investment classifications are used:

- a) **Financial assets at fair value through profit and loss** - Financial assets at fair value through profit and loss include financial assets held for sale and financial assets initially recognized at fair value through profit and loss.

When a contract contains one or more embedded derivatives, the entire hybrid contract can be designated as a financial asset at fair value through profit and loss, except when the embedded derivative does not significantly modify the cash flows, or it is clear that separation of the embedded derivative is prohibited.

- b) **Derivative financial instruments and hedges** - The Company and its subsidiaries use derivative financial instruments such as forward exchange contracts, cross currency swaps (CCS) and interest rate swaps (IRS) to hedge their risks associated with fluctuations in interest rates and exchange rates. These derivative financial instruments are initially recognized at fair value at the date on which the derivative contract is entered into and are subsequently measured at fair value.

4.15 Inventories

Raw materials, products in process, finished products and spare parts are valued at the lesser of cost and net realizable value. Net realizable value represents the estimated sales value of the inventory less all remaining production costs and the costs necessary to carry out the sale.

Inventory is valued using the following methods:

- a) Finished products and products in process are animals that are no longer alive, such as poultry, pork, turkey and salmon processed into various cuts and packages and sausages, which are valued at their average monthly production cost. The average cost of finished products includes the value of raw materials, labor and indirect manufacturing costs.
- b) Raw materials, consumables and spare parts are valued at average acquisition cost.
- c) Inventory in transit is valued at acquisition cost.

Inventories of raw materials, consumables and spare parts that are expected to be used in production within a period of one year are presented as current assets. The Company estimates that most of its inventories have a high turnover.

When market conditions cause production cost to exceed net realizable value, an impairment estimate is recorded for the difference in value. This impairment estimate also considers amounts related to obsolescence arising from low turnover, technical obsolescence and products withdrawn from the market.

4.16 Biological assets

Due to the nature of the business operated by the Company and its subsidiaries, the breeding, incubation, fattening and reproduction of chickens, turkeys, porks and salmon are classified as biological assets.

Biological assets intended for sale are classified as current biological assets, and those intended to reproduce new biological assets are classified as non-current and are depreciated on a straight-line basis over their useful lives, as described in note 13.3.

For those biological assets that are valued under the absorption costing method, the Company periodically evaluates the existence of any indication that the carrying amount may not be recoverable (impairment) in accordance with the standards contained in IAS 41 or IAS 36, as applicable. If the recoverable amount of an asset is estimated to be less than its carrying amount, the latter is reduced to the recoverable amount.

Meat Segment

Current biological assets are valued using the total production absorption costing method due to the short term of the production process (43 days for chicken, 130 days for turkey and 180 days for pork) and/or because such cost is close to its fair value.

Non-current biological assets are valued using a production costing method less accumulated depreciation on the basis of their years of productive life and whose value is close to their fair values.

Aquaculture Segment

Starting January 1, 2019, the Company has opted for a discounted cash flow model or present value method for the determination of fair value. The estimates and valuation model used to measure biological assets are described below:

Biological assets (salmon), such as brood fish, eggs, fry, smolts and small growing fish, are measured at fair value less estimated costs to the point of sale, except when fair value cannot be reliably determined in accordance with the definitions contained in IAS 41. For this purpose, the existence of a market for these assets must be considered in the first instance.

Considering that there is no active market for live fish inventories at these stages, it has been considered to value them at their accumulated cost at the closing date. Notwithstanding the above, if conditions so require, the Group performs an impairment test of its breeding biomass, the cumulative net effect of which is charged against the results for the period.

Biological assets (salmon) in breeding equal to or greater than one kilogram of weight are measured at fair value less estimated costs of processing and sale.

The direct and indirect costs incurred in the production process are part of the value of the biological asset through its capitalization. The accruals of such costs at the end of each period are

compared and adjusted to the fair value of the biological asset.

Changes in the fair value of those biological assets are reflected in the income statement of the period.

The calculation of the fair value estimate is based on market prices for harvested fish. This price is adjusted for the expected costs of harvesting, processing and freight to destination, to bring them to their value and condition of fish in bled-farmed condition (WFE¹). Thus, the evaluation considers the stage of the life cycle, its current weight and the expected distribution to the weight at which the valuation of the biomass is made. This estimate of fair value is recognized in the income statement of the Group.

A summary of the valuation criteria is as follows:

Stage	Assets	Valuation
Fresh water	Spawning fish	Direct and indirect cumulative cost
Fresh water	Eggs	Direct and indirect cumulative cost
Fresh water	Fry and smolts	Direct and indirect cumulative cost
Sea water	Fish in the sea	Fair value, according to the following:
		·Atlantic salmon, above 1.0 kg WFE ¹
		·Pacific salmon, above 1.0 kg WFE ¹
		·Trout, above 1.0 kg WFE ¹
Smaller fish are valued at their cumulative cost as of the reporting date, net of impairment, if appropriate.		

Valuation model

The evaluation is reviewed for each fish farm and is based on the fish biomass at the close of each month. The detail includes the total number of fish growing-out, their estimated average weight and the cost of fish biomass. The estimated value is based on the average weight of the biomass, which is multiplied by the value per kg reflected in the market price. The market price is obtained from an index of international prices, or from sales as of the reporting date. So the data used for these purposes is level III input data, according to the definitions in IFRS 13.

Assumptions used to determine the fair value of breeding fish

The estimated fair value of the fish biomass will be always based on assumptions, even if the Group has sufficient experience when considering these factors. The estimates take into account the following components: volume of fish biomass, average biomass weights, distribution of fish weights and market prices.

Volume of fish biomass

The volume of fish biomass over 1 kg is estimated from the number of smolts in the sea, an estimate of their growth, an estimate of their mortality for the cycle, and other factors.

¹¹WFE (*Whole Fish Equivalent*): is an industry standard measure, which refers to the weight of the whole bled salmon, also known internationally as *round weight* (RW).

Uncertainty with respect to the biomass volume is normally lower in the absence of mortality events or widespread illnesses.

Weight distribution to harvest

Fish in the water grow at different rates and, even in the presence of good estimates of average weight, there may be some dispersion in the quality and size of the fish. It is important to consider the distribution of size and quality as there are different prices on the market according to these attributes of the product. When estimating the value of the biomass of fish, a normal distribution of sizes, or in its absence, the most recent size distribution obtained in processing by the Group's processing plants, is considered.

Market prices

Market price assumptions are important for valuations, particularly when minor changes in market prices can result in significant changes in valuations.

4.17 Financial policies

The general financing and hedging policy of the Agrosuper companies provides guidelines for financing transactions using financial market hedging instruments, which aim to reduce operational risks, exchange rate risks and interest rate risks, which are described in the following policies.

- 1) **Financing policy** Financing requirements are identified by the Company's cash mismatches, which can be short or long term and are subject to the Company's financial performance and its investment plan. Accordingly, the Company bilaterally evaluates sources of short and long-term financing with local and international banks and the financial markets.
- 2) **Hedge policy** The objective of using derivatives is to reduce the financial risk of inflows and outflows committed in currencies other than the U.S. Dollar, arising in companies owned by Agrosuper. Derivatives are used to maintain known levels of debt and minimize exchange rate exposure in foreign trade transactions so as to reduce the effect of variations in the interest rates and/or exchange rates.
 - a) **Sale hedge policy** The objective of this policy is to hedge against the sale exchange rate by fixing income from exports. Since Agrosuper sells in different currencies, the execution of this policy converts all transactions from the currency of origin to the U.S. Dollar.
 - b) **Debt Hedge Policy** In order to look for the best financing rates, it might be that the debt subscribed by Agrosuper is in different currencies than the one sought. On that basis, debt must be converted to the currency of interest through forwards or an interest rate swap in order to neutralize the effect of having debt in a different currency while maintaining the advantage of a lower interest rate. This analysis is always made prior to closing a transaction.

- c) **Interest Rate Risk Hedge Policy** The purpose of hedging interest rate is to limit the effect of variations in the interest rate in loans subscribed by Agrosuper to banks and financial institutions and in bonds, to thus reduce the volatility of cash flows generated by interest payments.
- d) **Balance Sheet Hedge Policy** Agrosuper manages currency mismatching on a balance sheet level through a model by which exposure to different currencies occurring in the consolidated financial statements is monitored daily, taking them to the Company's functional currency.

4.18 Financial liabilities

The Group has two groups of financial liabilities.

Other financial liabilities

- a) **Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity, according to the nature of the contractual arrangement.
- b) **Equity instruments** - An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The equity instruments issued by Agrosuper S.A. are recorded at the value of the consideration received, net of direct issuance costs. The Company currently has only issued one series of shares.
- c) **Financial liabilities** - Financial liabilities are classified either as financial liabilities at fair value through profit and loss, or as other financial liabilities.

Financial liabilities at fair value through net income - Financial liabilities are classified at fair value through profit and loss when they are held for trading, or when they are designated as at fair value through profit and loss.

Other financial liabilities - Other financial liabilities including loans are initially valued at the value received, net of transaction costs. Other financial liabilities are subsequently revalued at amortized cost using the effective interest rate method, recognizing the interest expense based on the effective interest rate.

The effective interest rate method is used to calculate the amortized cost of a financial liability and the allocation of interest expense across the entire corresponding period. The effective interest rate is the rate which exactly discounts the future estimated payment cash flows over the expected life of the financial liability, or where appropriate a lesser period, or where the associated liability benefits from an early repayment option that is likely to be exercised.

Trade and other payables

Trade payables are initially recognized at fair value and subsequently at their amortized cost using the effective interest method. When the nominal value of a payable does not differ significantly from its fair value, it is recognized at its nominal value.

4.19 Derivative financial instruments and hedges

The Company and its subsidiaries use hedging financial instruments such as currency forwards, cross currency swaps and interest rate swaps to hedge risks related to exchange rates and interest rates, respectively.

Furthermore, it purchases futures and options on the Chicago Stock Exchange, with the aim of avoiding volatility in raw material commodity prices. These investments are initially recognized at fair value on the date on which the derivative contract is signed and are subsequently valued at their fair value.

Changes in the fair value of these derivatives are recognized in equity if they have been designated as hedging instruments and if the conditions established by IFRS are met to apply hedge accounting, otherwise they are recognized in net income.

Fair value hedge: The gain or loss arising from valuing a hedge instrument must be immediately recognized in the income statement, as must changes in the fair value of the hedged item attributable to the hedged risk, netting the effect in the same income statement account.

Cash flow hedge: Changes in the fair value of the effective portion of derivatives are recorded in a net equity reserve known as cash flow hedges. The cumulative loss or gain in this account is transferred to the income statement to the extent that the hedged item impacts the income statement because of the hedged risk, netting the effect in the same income statement account.

The results corresponding to the ineffective portion of the hedges are recorded directly in the statement of income

The Company evaluates the existence of embedded derivatives in contracts or financial instruments to determine if their characteristics and risks are closely related to the principal contract as long as the set is not being accounted for at fair value. If not closely related, they are recorded separately by accounting for variations in value in the income statement. Agrosuper S.A. and its subsidiaries has determined that its contracts have no embedded derivatives at the reporting date.

Fair value and classification of financial instruments

The fair value of derivative financial instruments is calculated as follows:

Derivatives traded on a formal market are valued at their quoted price at the reporting date.

Derivatives not traded on formal markets are valued by the Group using discounted expected cash flows and generally accepted options valuation models, based on current and future market conditions at the reporting date.

Therefore, the Group classifies financial instruments into the following hierarchies:

Level 1: Quoted (unadjusted) price in an active market for identical assets and liabilities.

Level 2: Indications other than quoted prices included in level 1 that are observable for assets or liabilities, either directly (i.e. as a price) or indirectly (i.e. as a derivative of a price).

Level 3: Indications for assets or liabilities that are not based on observable market information (non-observable indications).

4.20 Leases

IFRS 16 "Leases", the Company, in its capacity as lessee, identifies right-of-use assets related to lease contracts which are classified in the financial statement as Right-of-use leased assets. Upon inception of a lease, the Company recognizes a right-of-use asset and a lease liability. Assets and liabilities arising from a lease contract are initially measured at present value.

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease, i.e. whether the contract gives the right to control the use of an identified asset, for a period of time in exchange for a consideration. To assess whether a contract has the right to control the use of an identified asset, the Company assesses whether:

1. The contract implies the use of an identified asset. This can be specified explicitly or implicitly. If the supplier has a substantial right of substitution, then the asset is not identified;
2. The Company has the right to obtain substantially all the economic benefits from the use of the asset during the period; and
3. The Company has the right to manage the use of the asset, i.e. it has the right to decide how and for what purpose the asset is used.

Considerations:

- Right-of-use asset identification: As part of the contract review and analysis process, the Company identified right-of-use assets associated with identifiable and non-substitutable lease contracts, which were classified under Right-of-use assets.
- The Company has leases mainly for the lease of branches, offices, vehicles and boats.
- Interest rate used in the measurement of financial liabilities for leases: The Company determined the average interest rate of indebtedness based on the currency and term of the lease agreements.
- Lease term: The Company evaluated the terms of the leases, market conditions, costs related to lease termination and early cancellation.

- Initial valuation of lease contracts:
- The Company excluded from this accounting, those with a remaining term of less than 12 months and whose amounts were less than US\$ 10,000,
- The Company excluded the initial direct costs for the measurement of the right of use at the date of initial application.
- The Company analyzed the lease term on a case-by-case basis for those leases with an option to extend or terminate the lease.

Each lease payment is allocated between the liability and the finance cost. The financial cost is recognized in the income statement during the lease period, in order to generate a constant periodic interest rate over the remaining balance of the liability for each period.

In this regard, the Company has opted not to recognise right-of-use assets and lease liabilities for those contracts with a term of twelve months or less and for those contracts whose assets are of a lesser amount than permitted by the standard. This recognition was made starting on 01/01/2019, applying the standard on its mandatory application date.

For those contracts described in the preceding paragraph, the lease cost is classified directly to cost of sales, distribution cost or administrative expense, depending on the nature of the contract

4.21 Statement of cash flow

The statement of cash flow reflects cash movements during the period, determined using the direct method. The terms used in these cash flow statements are defined as follows:

Cash flows: Inflows and outflows of cash or other equivalents including time investments with a term of three months or less that are highly liquid and with a low risk of variation in value.

Operating activities: Those activities that generate the Group's principal source of revenue as well as other activities that cannot be classified as investing or financing.

Investing activities: Those activities involving the acquisition, sale or disposal by other means of non-current assets and other investments not included in cash and cash equivalents.

Financing activities: Those activities that bring about changes in the size and composition of total equity and financial liabilities.

4.22 Provisions

Provisions are obligations at the reporting date resulting from past events, which may damage the Company's equity, whose value and timing are uncertain. Provisions are recorded at the present value of the most likely amount the Company expects to disburse to settle that obligation.

Provisions are regularly reviewed and quantified using the latest available information at the reporting date.

4.23 Revenue recognition

The Company's revenues are mostly derived from its principal performance obligation to transfer its products under agreements in which the transfer of control determines compliance with its performance obligations. These revenues are recognized in a point in time under IFRS 15 terminology.

Revenues are measured at the fair value of the economic benefits received or receivable and are presented net of value added tax, specific taxes, returns, discounts and rebates.

Revenue from sales of goods is recognized after the Company has transferred to the buyer the risks and rewards of ownership of those goods in accordance with the terms agreed in the commercial agreements and does not retain the right to dispose of them or maintain effective control; generally, this means that sales are recorded upon physical transfer.

Domestic sales

The sale of our chicken, pork, turkey, salmon and processed food products in their various formats is made through our 27 commercial offices throughout the country, supplying supermarket chains, traditional channel, wholesale distributors and Food Service. Revenues from sales in the domestic market, net of all taxes, returns, discounts, contributions and rebates, are recognized upon delivery of the products together with the transfer of all risks and rewards thereof and once the performance obligation is satisfied.

Export

The sale of our chicken, pork, turkey, salmon and processed food products in their various formats is mainly made through our 11 international commercial offices, the main destinations being China, USA, Japan, Brazil, Russia, European Union, South Korea and Mexico, among others. In general, the Company's delivery terms for export sales are based on Incoterms 2000, being the official rules for the interpretation of commercial terms issued by the International Chamber of Commerce.

4.24 Income and deferred taxes

An income tax provision is calculated based on the Company's corporate taxable income, calculated according to current tax regulations. This calculation for foreign subsidiaries complies with the laws in their respective countries.

Deferred taxes are calculated using the balance method on temporary differences that arise between the tax value of assets and liabilities and their book values. However, if deferred taxes arise from the initial recognition of a liability or an asset in a transaction other than a business combination, which at the time of the transaction neither affected the accounting result nor the tax gain or loss, it is not accounted for. Deferred tax is calculated using the current tax rates and

laws, or those about to be approved at the reporting date, which are likely to be applicable when the corresponding deferred tax asset is collected, or deferred tax liability is settled.

The Company does not record deferred taxes on temporary differences that arise from investments in subsidiaries, associates and investments in joint control agreements, provided the Company can control when those temporary differences will reverse and the temporary differences are not likely to reverse in the foreseeable future.

Current and deferred income taxes are recognized in the income statement, except taxes arising on items recognized in other comprehensive income, or directly in equity, or on a business combination. In such case, the corresponding tax is also recognized in Other comprehensive income.

4.25 Segment reporting

The Company and its subsidiaries present segment information based on the financial information available to senior decision makers for assessing performance and allocating resources, in accordance with IFRS 8 “Operating Segments”.

4.26 Earnings (loss) per share

Basic earnings per share is calculated as the quotient of net income (losses) for the period attributable to the Parent Company divided by the average weighted number of ordinary shares in circulation during that period, without including the average number of shares of the Parent Company held by any subsidiaries, should that be the case.

4.27 Dividends

Article 79 of Chile’s Corporations Law establishes that, except if unanimously agreed otherwise by shareholders of all issued shares, listed corporations should distribute a cash dividend to its shareholders on a yearly basis, prorated based on their shares or the proportion established in the company's by-laws if there are preferred shares, of at least 30% of net income for each period, except when accumulated losses from prior years must be absorbed.

The Company's Board of Directors agreed to create a quarterly dividend provision equivalent to 30% of the Company's net income for the quarter, subject to the Company's annual net distributable income, calculated in accordance with Circular 1945 dated September 29, 2009. Net distributable income was defined at the Company's board meeting held on March 27, 2020, and the Annual General Shareholders' Meeting held on April 29, 2020 approved the policy to calculate the Company's net distributable income, dividends and profit sharing, where it was agreed to exclude the following:

- Unrealized income relating to increases in the fair value of biological assets regulated by IAS 41. This income will be recognized as net distributable net income when such assets have been realized. For these purposes, realized means the portion of those increases in the fair value of assets sold or disposed of by any other means.

- Unrealized income from the acquisition of other entities and unrealized income arising from applying paragraphs 24, 39, 42 and 58 of IFRS 3, which refers to business combinations.

Interim, prospective and final dividends are deducted from Total Equity as soon as they are approved by the competent entity, which in the first case is normally the Company's Board of Directors and in the second and third cases, are the shareholders at the Shareholders meeting.

4.28 Environment

Expenditure associated with the environment is charged to the income statement when incurred, except for when it relates to an investment project that is associated with production, in which case it is capitalized in accordance with IFRS.

4.29 Non-current assets held for sale and discontinued operations

Non-current assets or groups of assets whose book values will be recovered through sale rather than continued use are classified as held for sale. This condition is only fulfilled when the sale is highly probable and the asset is available for sale immediately in its current state. These assets are valued at the lower of their book value and their fair value less selling costs, considering that depreciation will no longer apply to such assets.

There are no discontinued operations, according to Company analysis based on the criteria described in paragraph 32 of IFRS 5.

4.30 New standards, interpretations and amendments

The following standards, interpretations and amendments are mandatory for the first time for financial periods beginning on or after January 1, 2022

Amendments and improvements

Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements to IFRS standards 2018-2020 cycle that make minor changes to the following standards:

- IFRS 9 Financial Instruments: clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- IFRS 16 Leases: amendment of Illustrative Example 13 to remove the lessor payments illustration in relation to leasehold improvements, to eliminate any confusion about the treatment of lease incentives.
- IFRS 1 First-time Adoption of International Financial Reporting Standards: allows companies that have measured their assets and liabilities at their parent company's book values, to also measure cumulative translation differences using the amounts reported by the parent company. This amendment will also apply to associates and joint ventures that have adopted the same IFRS 1 exemption.
- IAS 41 Agriculture: elimination of the requirement for companies to exclude cash flows for tax purposes when measuring fair value under IAS 41. This amendment is intended to align IAS 41 with the requirement in the standard to discount after-tax cash flows

a) Standards, interpretations and amendments issued, but not yet mandatory and which have not been adopted early

Standards and Interpretations	as of
IFRS 17 "Insurance Contracts" - issued in May 2017, replaces IFRS 4. IFRS 17 will change the accounting for all companies that issue insurance contracts and investment contracts with discretionary participation features. The standard applies to annual periods beginning on or after 1 January 2023, and early application is permitted for companies that apply IFRS 9, "Financial Instruments".	01/01/2023
Amendments to IAS 1, 'Presentation of financial statements', on classification of liabilities, published in January, 2020. These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.	01/01/2024
Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8, published in February, 2021. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.	01/01/2023
Amendment to IAS 12 – deferred tax related to assets and liabilities arising from a single transaction, published in May, 2021. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.	01/01/2023
Amendment to IFRS 10 "Consolidated financial statements" and IAS 28 "Investments in associates and joint ventures" - issued in September 2014. This amendment	Undetermined

addresses an inconsistency between the requirements of IFRS 10 and IAS 28 in the treatment of the sale or provision of goods between an investor and its associate or joint venture. The main consequence of these amendments is that they recognize a full gain or a loss when the transaction involves a business (whether or not in a subsidiary) and a partial gain or loss when the transaction involves assets that do not constitute a business, even if these assets are in a subsidiary.

The Company's management believes that the adoption of the above standards, amendments and interpretations will have no significant impact on the Company's consolidated financial statements when they are first applied.

5. FINANCIAL RISK MANAGEMENT AND DEFINITION OF HEDGES

The Group's companies are exposed to risks that are managed by implementing systems that identify, measure, limit concentration and monitor these risks.

The basic policies defined by the Group include the following:

- Comply with good corporate governance standards.
- Strictly comply with all the Company's standards.
- Each business and corporate area defines:
 - Its markets and products, based on sufficient knowledge and ability to ensure effective risk management.
 - Criteria regarding third parties.
 - Authorized operators.

Businesses and corporate areas establish a predisposition to risk that is consistent with the defined strategy for each of their markets.

All the transactions performed by businesses and corporate areas are conducted within the limits approved by the appropriate internal entity.

Businesses, corporate areas, business lines and companies establish sufficient risk management controls to ensure that market transactions are conducted in accordance with the Company's policies, standards and procedures.

5.1 Interest rate risk

Variations in interest rate alter the fair value of assets and liabilities that accrue interest at a fixed rate, as well as future cash flows from assets and liabilities with a variable interest rate.

The objective of interest rate risk management is to achieve a balanced debt structure that minimizes the cost of debt, with reduced volatility in the income statement.

Depending on the Group's estimates and debt structure objectives, hedging transactions take place by purchasing derivatives that mitigate these risks. The status of debts and their associated hedges is as follows:

Financial debt position, net of hedging transactions	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Bank loans (Note 21.1)	436.843	945.241
Bonds payable (Note 21)	904.447	381.280
Liability positions in derivative transactions (Note 22.3 a)	36.721	120.987
Asset positions in derivative transactions (Note 22.3 a)	(11.051)	(5.962)
Total	1.366.960	1.441.546

The Group's financial debt structure by fixed and variable interest rates, after purchased hedges, is as follows:

Net position:	03-31-2022	12-31-2021
Fixed interest rate	43,71%	28,84%
Protected interest rate	45,02%	44,56%
Variable interest rate	11,27%	26,60%
	100%	100%

5.2 Exchange rate risk

Exchange rate risk relates mainly to the following:

- A significant proportion of the meat segment marketed in Chile is sold in Chilean pesos.
- Loans contracted by Group's companies and denominated in Chilean pesos.
- Domestic payments for labor and raw materials purchases associated with animal production and other services.

The Company's exchange rate hedging policy is based on cash flows and maintaining a balance between flows indexed to the US dollar and the assets and liabilities in that currency, in order to mitigate exchange rate risk. The objective is to minimize the exposure of cash flows to exchange rate risk.

The instruments currently used to comply with the policy are currency swaps and exchange rate forwards, whose market value and notional amount are detailed in note 22.3a) and 22.3b) respectively. Likewise, Group policy is to refinance debt into the functional currency of each company.

5.3 Commodities risk

The Company is exposed to the risk of variations in some commodity prices, primarily on grain purchases for animal production, such as corn and soybean.

As of March 31, 2022 December 31, 2021, the Company had no such hedge contracts.

5.4 Liquidity risk

The Company's liquidity policy consisting in obtaining long-term credit facilities and temporary financial investments. Their values should be sufficient to meet projected liquidity requirements for a period based on the circumstances and expectations surrounding debt and capital markets.

These projected liquidity requirements include gross financial debt maturity, after financial derivatives. Details of the characteristics and conditions of financial debt and financial derivatives are contained in the attached repayment table.

	2022 MUS\$	2023 MUS\$	2024 MUS\$	2025 MUS\$	2026 MUS\$	2027 MUS\$	2028 + MUS\$	Total MUS\$
Principal repayment	88.702	17.404	118.725	119.469	167.161	16.918	800.999	1.329.378
Interest	24.949	48.432	46.739	44.075	41.124	39.154	123.473	367.946
Total	113.651	65.836	165.464	163.544	208.285	56.072	924.472	1.697.324

5.5 Credit risk

The Group performs detailed credit risk monitoring.

Trade receivables:

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. Those assets that will mature in less than 12 months are classified as current assets. Those assets that will mature in greater than 12 months are classified as non-current assets.

The entire trade receivables portfolio is comprised of sales on credit and the Company applies the following hedging policy to it:

Domestic Market

Every credit customer has an individual line of credit approved by the Insurance Company regardless of the credit term. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the Insurance Company.

Customers without credit must pay immediately, so no impairment provision is required.

International Market

Approximately 87.3% of sales are to customers with an individual line of credit approved by the Insurance Company. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the insurance company.

Customers without an approved line of credit with an Insurance Company are:

- Customers who guarantee and pay with Letter of Credit, who represent approximately 6.9% of sales. In these cases, the customer's bank pays the national bank that has confirmed the letter of credit, in order to finally pay Agrosuper S.A.
- Customers who prepay or pay against a copy of the documents (CAD) represent 0.9% of sales. In these cases, the customer pays between 10% and 50% in advance and the difference is paid when the product arrives. However, the documentation required to clear customs is released after the customer has paid.
- Customers who pay against a copy of the documents (CAD) represent 4.1% of receivables, where the documentation required to clear customs is released after the customer has paid.
- Customers with bank collection of the invoice upon product arrival represent 0.8% of receivables.
- Customers who fully prepay before dispatch represent 0.6% of receivables.

Other financial assets:

Cash surpluses are invested with domestic and foreign financial entities, within limits established for each instrument.

Banks and financial institutions are chosen from those with at least two investment grade risk ratings, according to the main international risk rating agencies, such as Moody's, Standard & Poors and Fitch Ratings.

5.6 Risk measurement

Interest rate risk:

If interest rates change by 5%, the annual interest on long-term loans will increase or decrease on US dollar loans as follows:

Currency	Description	Maturity	Semiannual Rate	Principal in currency	Interest in currency	5% rate change in currency	Change %
USD	Crédito LP BOFA 2 Libor 3M	29-09-2026	0,48%	100.000.000	479.634,75	23.981,74	0,005%
USD	Crédito LP Sumitomo Libor 3M	20-10-2026	0,48%	50.000.000	239.817,38	11.990,87	0,005%

Note: Only includes floating rate long-term loans (not IRS fix to fix)

Exchange rate risk:

The Company hedges exchange rates with forwards and cross currency swaps to minimize its exchange rate risks.

The net balance exposure by currency is as follows:

Exposure of net assets (liabilities) by currency	03.31.2022	12.31.2021
	Original currency (thousands)	
Chilean pesos	(18.502.362)	(119.680.508)
Yen	13.122.993	8.615.668
Mexican peso	376.238	277.860
Euro	13.149	11.604
UF	(42)	(18)

If exchange rates increase by 10%, the net balance exposure by currency is as follows:

Exposure of net assets (liabilities) by currency	03.31.2022	12.31.2021
	Original currency (thousands)	
Chilean pesos	(18.511.679)	(86.487.076)
Yen	13.153.329	8.629.446
Mexican peso	376.390	277.940
Euro	13.153	11.607
UF	(42)	(18)

6. MANAGEMENT'S JUDGMENTS IN APPLYING THE COMPANY'S ACCOUNTING POLICIES

Applying IFRS requires the use of estimates and assumptions that affect the values of assets and liabilities at the reporting date and income and expenses during the reporting period. Management must make judgments and estimates that may have a significant effect on the figures presented in these interim consolidated financial statements prepared under IFRS.

Management must make judgments and estimates that have a significant effect on the figures presented in these interim consolidated financial statements. The most critical estimates and judgments are detailed as follows:

6.1 Useful life of assets

Depreciation of PPE is calculated on a straight-line basis based on the estimated useful lives of the assets, considering their estimated residual value. When an asset is comprised of significant components, which have different useful lives, each part is depreciated separately. The estimated useful lives and residual values of PPE are reviewed and adjusted, if necessary, at each interim balance sheet date.

6.2 Asset impairment

The Company and its subsidiaries review the book value of its tangible and intangible assets to assess whether there is any indication that these assets could be impaired.

For intangible assets of indefinite useful life, which are not amortized, on an annual basis or earlier if evidence of impairment is detected, the necessary tests are performed to ensure that their carrying amount does not exceed their recoverable amount.

Assets that do not generate independent cash flows are grouped into their appropriate cash generating unit (CGU) for impairment testing purposes. The recoverable value of these assets or CGUs is the higher of their fair values (discounted future cash flow method) and their book values.

Other non-financial assets other than goodwill and intangible assets with indefinite useful lives are tested for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be recoverable, and an impairment loss is recognized when the carrying amount is greater than the recoverable amount.

The Company assesses annually whether impairment indicators on non-financial assets that resulted in losses recorded in prior years have disappeared or decreased. If this situation exists, the recoverable amount of the specific asset is recalculated and its carrying value increased if necessary. The increase is recognized in the Consolidated Statement of Income by Function as a reversal of impairment losses. The increase in the value of the previously impaired asset is recognized only if it arises from changes in the assumptions that were used to calculate the recoverable amount. The amount of the increase in the asset resulting from the reversal of the impairment loss is limited to the amount that would have been recognized had the impairment not existed.

6.3 Allowance for doubtful receivables

The Company evaluates accounts receivable for impairment on a collective basis by grouping financial assets according to similar risk characteristics that are indicative of the debtors' ability to meet their obligations under the agreed terms. When there is objective evidence that an impairment loss on accounts receivable has been incurred, the amount of the loss is recognized in the interim Consolidated Statement of Income by Function under Administrative expenses.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be objectively related to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed.

Any subsequent reversal of an impairment loss is recognized in income to the extent that the carrying amount of the asset does not exceed its fair value at the date of reversal.

6.4 The probability of occurrence and the value of uncertain or contingent liabilities

Estimates are based on the information available at the reporting date. However, future events may require these estimates to be revalued in future periods.

6.5 Fair value of biological assets

All biological assets in the meat segment are valued using the total production cost absorption method, due to the short term nature of the productive process and as this cost is close to their fair values.

Biological assets of the aquaculture segment, such as brood fish, eggs, alevins, smolts and small growing fish, are measured at fair value less estimated costs to the point of sale, except when fair value cannot be reliably determined in accordance with the definitions contained in IAS 41. For this purpose, the existence of a market for these assets must be considered in the first instance.

Considering that there is no active market for live fish stocks at these stages, it has been considered to value them at their accumulated cost at the closing date. Notwithstanding the foregoing, if conditions so require, the Group performs an impairment test on its growing biomass, the net cumulative effect of which is charged against income for the period.

Biological assets in breeding equal to or greater than one kilogram are measured at fair value less estimated costs of processing and sale.

Direct and indirect costs incurred in the production process are part of the value of the biological asset through capitalization. The accrual of such costs at the end of each period is compared and adjusted to the fair value of the biological asset.

Changes in the fair value of such biological assets are reflected in the statement of income for the period.

The calculation of the fair value estimate is based on market prices for harvested fish. This price is adjusted for the expected costs of harvesting, processing and freight to destination, to bring them to their value and condition of fish in the bled-farmed state (WFE1). This way, the evaluation considers the stage of the life cycle, its current weight and the expected distribution at the weight at which the biomass is valued. This fair value estimate is recognized in the Group's income statement.

Valuation model

As of the consolidated financial statements ended December 31, 2019, the Company has opted for a discounted cash flow model or present value method for determining fair value.

The estimates and the valuation model applied for the measurement of biological assets are detailed below:

The model uses a discount rate determined for each region, which reflects the risk by geographical sector of cultivation. In addition, the projected costs include a theoretical cost of use of concessions, in accordance with the definitions contained in IAS 41, allowing the adjustment to fair value of the biological asset at different stages of growth to be taken to present value.

The assessment is reviewed for each farm and is based on the biomass of fish existing at the end of each month. Its detail includes the total number of fish in farming, their estimated average weight and the cost of fish biomass. In its calculation, the value is estimated by considering the average weight at which the biomass is found, which in turn is multiplied by the value per kilo that reflects the market price. The market price is obtained from an international price index, or from sales made at the closing date of the financial statements, and, therefore, Level III input data is used for these purposes, in accordance with the definitions of IFRS 13.

Assumptions used to determine the fair value of farmed fish

The estimation of the fair value of fish biomass will always be based on assumptions, even when the Group has sufficient experience in considering these factors. Estimates are applied considering the following elements: volume of fish biomass, average weights of biomass, distribution at valuation weight and market prices.

Volume of fish biomass

The volume of fish biomass to a kilogram is estimated based on the number of smolts seeded in the seawater, the estimate of cumulative growth, and the record of observed mortality in the cycle, among others. Uncertainty regarding biomass volume is usually lower in the absence of massive mortality or disease events.

Harvest weight distribution

Fish in water grow at different rates and, even in the presence of good estimates for average weight, there may be some dispersion in fish quality and size. It is relevant to consider the distribution of size and quality since there are different prices in the market depending on these product attributes. When estimating the value of fish biomass, a normal size distribution or, alternatively, the most recent size distribution obtained in processing by the Group's processing plants is considered.

Market prices

The assumption of market prices is important for the evaluation, especially when minor changes in market prices can produce significant changes in the evaluation.

6.6 Net realizable value of inventories

Inventories are valued at the lower of production or acquisition cost and their net realizable value , which is estimated as the selling price of the inventories in the normal course of business, less the

estimated costs to complete production and those necessary to perform the sale. The costs of inventories include all costs arising from production and other costs incurred in that process, which are considered part of cost of sales (absorption costing).

6.7 Fair value of derivative instruments

The fair value of derivative instruments is determined using assumptions based on quoted market rates, adjusted to take into account the specific characteristics of each instrument.

7. CASH AND CASH EQUIVALENTS.

a) Cash and cash equivalents as of March 31, 2022 and December 31, 2021, are detailed as follows:

b)

Details	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Cash and bank accounts	92.080	44.011
Remunerated current accounts	43.119	3.983
Mutual funds	5.001	7.900
Term deposits	156.465	65.641
Total	296.665	121.535

Note: The remunerated checking accounts as of March 31, 2022 and December 31, 2021 are balances held at Scotiabank, Bank of América and Corpbanca-Itaú.

Fixed-income mutual funds are investments in units, and they are revalued at each reporting date.

There were no restrictions on the availability of cash.

c) Cash and cash equivalents by currency are as follows:

Currency	03.31.2022 ThUS\$	12.31.2021 ThUS\$
US dollar	174.937	101.277
Chilean peso	100.206	10.400
Euro	1.152	846
Japanese yen	14.701	4.660
Pound sterling	375	348
Mexican peso	817	1.360
Chinese yuan	4.404	2.569
Other currencies	73	75
Total	296.665	384.665

8. OTHER CURRENT AND NON-CURRENT FINANCIAL ASSETS

Other current and non-current financial assets as of March 31, 2022 and December 31, 2021, are detailed as follows:

Details	Current		Non-current	
	03.31.2022 ThUS\$	12.31.2021 ThUS\$	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Hedging contracts	6.603	5.962	4.448	
Deposits per call to Margin	9.760	62.460	-	
Others	-	-	74	110
Total	16.363	68.422	4.522	110

Derivative contracts are detailed in Note 22.3 a).

9. OTHER CURRENT NON-FINANCIAL ASSETS

Other current non-financial assets as of March 31, 2022 and December 31, 2021, are detailed as follows:

Details	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Prepaid security	19.642	22.238
Prepaid expenses	12.380	7.377
Documents in guarantee	1.091	1.077
Others	3.159	2.764
Total	36.272	33.456

10. TRADE AND OTHER CURRENT RECEIVABLES, NON-CURRENT RIGHTS RECEIVABLE

As of March 31, 2022 and December 31, 2021, these are detailed as follows:

Details	Trade and other receivables Total current		Rights receivable Total non-current	
	03.31.2022 ThUS\$	12.31.2021 ThUS\$	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Domestic trade receivables	179.037	152.851	-	-
Export trade receivables	177.969	182.412	-	-
Notes receivable	7.664	7.626	-	-
Subtotal gross trade receivables	364.670	342.889	-	-
Allowance for doubtful receivables	(1.420)	(1.471)	-	-
Subtotal net trade receivables	363.250	341.418	-	-
Employee receivables	14.710	22.643	-	-
Other rights and receivables	20.241	26.795	5.462	6.349
Subtotal other receivables	34.951	49.438	5.462	6.349
Total trade and other receivables	398.201	390.856	5.462	6.349

The fair values of trade and other receivables are equal to their commercial values as they represent the amounts in cash that will be collected for each concept.

There are no significant restrictions on the availability of these accounts receivable.

The Company has no balances in a guaranteed portfolio as of March 31, 2022 and December 31, 2021

The balances are presented gross.

The balances in this account do not generally accrue interest.

The principal debtors that comprise Trade receivables and other current receivables are as follows:

Trade debtor (gross)	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Traditional	-	-
Supermarket	46.398	25.165
Industrial	106.213	108.892
Food service	22.613	9.726
Subtotal domestic trade debtors	11.477	143.783
Subtotal export trade debtors	186.701	182.412
	177.969	
Total gross trade receivables	-	326.195

These values do not include the allowance for doubtful receivables. The general criterion for determining the impairment provision has been established within the framework of IFRS 9, which requires analyzing the long-term behavior of the customer portfolio in order to generate an index of expected credit losses by tranches based on the age of the portfolio. This analysis provided the following results for the Company:

	03.31.2022			12.31.2021		
	Gross book value ThCh\$	Expected loss rate %	Provision for impairment ThCh\$	Gross book value ThCh\$	Expected loss rate %	Provision for impairment ThCh\$
Not past-due	363.675	0	0	366.032	-	0%
1 up to 90 days	33.269	-141	0	24.013	(147)	20%
91 up to 180 days	1.345	-284	0	1.280	(294)	40%
181 up to 250 days	193	-426	1	275	(441)	60%
Over 250 days	1.139	-569	1	727	(589)	80%
	399.621	-1.420	0	392.327	(1.471)	

The impairment percentage for each tranche of the portfolio differs from directly applying the above percentages, because they apply to the portion of the portfolio not covered by credit insurance.

The amounts claimed on these insurance policies and the corresponding compensation received during 2022 and 2021 are as follows:

Details	01.01.2022 to 03.31.2022 ThUS\$	01.01.2021 to 03.31.2021 ThUS\$
Opening balance of claims pending settlement	1.696	2.271
Claims settled in the period	80	352
Write-offs	(15)	(1)
claims indemnified in the period	(952)	(228)
Allowance	-	-
Deductible for claims settled	-	-
Closing balance of claims pending settlement	809	2.394

An impaired receivables provision is created for each customer in accordance with the conditions established with the insurance companies when the customer was evaluated.

Both the domestic and international markets have a credit line approved by various Insurance Companies, which has a 10% excess. Therefore, provisions will not exceed this 10%.

The compensation received and the premium expense for this insurance are recorded on a cash basis, and the allowance for doubtful accounts receivable is recorded on an accrual basis, as required by International Financial Reporting Standards (IFRS).

10.a) Stratification of the trade and other receivables portfolio by age.

11. BALANCES AND TRANSACTIONS WITH RELATED PARTIES

Transactions between the Company and its subsidiaries consist of recurring transactions made under regular business terms. These intergroup transactions have been eliminated upon consolidation and are not disclosed in this note. Since there are no doubtful balances, management has not made any allowances for doubtful accounts to reduce balances receivable and there are no related guarantees.

11.1 Balances and Transactions with Related Parties

Receivables and payables between the Company and its unconsolidated related companies are detailed as follows:

a) Receivables with Related Parties

Country	Relationship	Chilean ID number	Company	Currency	Operation	Total current	
						03.31.2022 ThUS\$	12.31.2021 ThUS\$
China		Foreign	V&F (Sanghai) Wine Trade Co.Ltd	Yuan	Commercial	-	31

11.2 Senior Management and the Board of Directors

Agrosuper S.A. is managed by a Board of Directors composed of ten members. The directors shall serve a term of three years and may be re-elected.

At an extraordinary shareholders' meeting held on April 29, 2020, it was agreed to change the number of Directors from six to ten members.

The directors appointed are:

Gonzalo Vial Vial	:	Chairman
Carlos Jose Guzman Vial	:	Vice Chairman
Fernando Barros Tocornal	:	Director
María Pilar Vial Concha	:	Director
María José Vial Concha	:	Director
Verónica Edwards Guzmán	:	Director
Andres Alberto Vial Sanchez	:	Director
Canio Corbo Lioi	:	Director
Antonio Tuset Jorratt	:	Director
Juan Claro González	:	Director

a) Director's remuneration

The parent company's Directors have received remuneration and accrued a profit share as of March 31, 2022 and December 31, 2021, as follows:

Name	Position	03.31.2022		03.31.2021	
		Board Fees ThUS\$	Share of Net Income ThUS\$	Board Fees ThUS\$	Share of Net Income ThUS\$
Mr. Gonzalo Vial Vial	Chairman	55	89	44	61
Mr. Carlos Jose Guzman Vial	Vice Chairman	40	69	33	46
Mr. Fernando Barros Tocornal	Director	28	46	22	31
Ms. Maria Pilar Vial Concha	Director	28	46	22	31
Ms. Maria Jose Vial Concha	Director	28	46	22	31
Ms. Veronica Edwards Guzman	Director	28	46	22	31
Mr. Andres Alberto Vial Sanchez	Director	28	46	22	31
Mr. Canio Corbo Lioi	Director	28	46	22	31
Mr. Antonio Tuset Jorratt	Director	28	46	22	31
Mr. Juan Claro Gonzalez	Director	28	46	22	31
Total		319	526	253	355

Note: as of March 31, 2022 and December 31, 2021, profit sharing is based on the net distributable income described in Note 4.27

b) Senior executive's remuneration

Description	03.31.2022 ThUS\$	03.31.2021 ThUS\$
Wages and salaries	787	800
Welfare benefits	13	14
Employee termination benefits	-	171
Senior executives remuneration	800	985

12. INVENTORIES

12.1 Inventories are detailed as follows:

	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Raw materials	175.705	203.600
Products in process	9.141	6.814
Finished products (a)	280.094	228.586
Aquaculture net realizable value and fair value	28.157	2.279
Materials, consumables and spare parts	71.714	67.560
Obsolescence provision (b)	(1.344)	(2.568)
Total	563.467	506.271

Management estimates that its inventory will be used within less than one year.

The company has no rebates on inventories nor reversed any rebates in the period and it has not provided any inventories as a guarantee, as of March 31, 2022 and December 31, 2021.

The amount of inventories recognized as cost in the periods ended March 31, 2022 and 2021, amounts to ThUS\$ 741.001 and ThUS\$ \$ 717.082 respectively.

- a) Finished products are expressed at their consolidated value. Therefore, any profit margins are discounted on sales and purchases to subsidiaries and associate companies.
- b) The Company has provided against any obsolescence associated with consumable supplies, covering supplies that will not be used in production, derived from low turnover and technical obsolescence.

The movement of fair value by finished product is as follows:

Changes in the fair value and net realizable value of finished products for the period are as follows:

	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Opening balance fair value of finished products	2.279	(13.529)
Fair value transferred from biological assets to finished products	262.562	656.781
Fair value of finished products harvested and sold with effect on income (a)	(236.684)	(640.973)
Closing balance fair value and net realizable value of finished products	28.157	2.279

13. BIOLOGICAL ASSETS

13.1 Detail of biological assets

Biological assets as of March 31, 2022 and December 31, 2021, are detailed as follows:

	Current	
	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Meat biological assets	147.293	207.324
Aquaculture biological assets	211.642	775.735
Total	-	983.059

	Non-current	
	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Meat biological assets	4.780	26.161
Aquaculture biological assets	6.823	38.515
Total	40.258	64.676

13.2 Movement in biological assets

Movements in biological assets associated with the meat and aquaculture businesses as of March 31, 2022 and December 31, 2021 are as follows:

a) Meat Segment

MOVEMENTS IN MEAT ASSETS

	Current	
	From 01.01.2022 to 03.31.2022 ThUS\$	From 01.01.2021 to 12.31.2021 ThUS\$
Opening balance	207.324	181.608
Changes to biological assets		
Increases for incubation and birth costs	35.864	142.126
Increases for fattening costs	364.444	1.394.231
Decreases for processing	(395.990)	(1.510.641)
Total changes to biological assets	4.318	25.716
Closing balance of current biological assets	211.642	207.324

	Non-current	
	From 01.01.2022 to 03.31.2022 ThUS\$	From 01.01.2021 to 12.31.2021 ThUS\$
Opening balance	26.161	25.795
Changes to biological assets		
Increases for purchases and relocating breeders	8.627	37.145
Decreases for depreciation and processing breeders	(9.121)	(36.779)
Total changes to biological assets	(494)	366
Closing balance of non-current biological assets	25.667	26.161

b) Aquaculture Segment

	Current	
	From 01.01.2022 to 03.31.2022	From 01.01.2021 to 12.31.2021
	ThUS\$	ThUS\$
Opening balance	775.735	670.372
Changes to biological assets		
Increases for incubation and birth costs	7.372	30.354
Fair value of biological assets for the period (a)	178.958	746.050
Fair value of biological assets transferred to inventories	-262.562	(656.781)
Increases for purchases and relocating biomass	18.176	72.504
Increases for fattening costs	154.249	651.278
Exchange rate differences on valuation of biological assets		
Decreases for processing	-230.643	(738.042)
Total changes to biological assets	(134.450)	105.363
Closing balance of current biological assets	641.285	775.735
	Non-current	
	From 01.01.2022 to 03.31.2022	From 01.01.2021 to 12.31.2021
	ThUS\$	ThUS\$
Opening balance	38.515	38.181
Changes to biological assets		
Decrease from harvesting and transfers to biological assets,	19.919	73.207
Increases for purchases and relocating breeders and biomass	-18.176	(72.503)
Exchange rate differences on valuation of biological assets	0	(370)
Total changes in biological assets	1.743	334
Closing balance of non-current biological assets	40.258	38.515

(a) The fair value of biological assets for the period, and its balancing entry is in the statement of income according to Note 27 (see statement of income for the aquaculture segment).

Changes in fair value of biological assets for the period are as follows:

	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Opening balance fair value of biological assets	322.406	233.137
Fair value of biological assets for the period with effect on income (a)	178.958	746.050
Fair value of biological assets transferred to inventories	(262.562)	(656.781)
others	-	-
Closing balance fair value of biological assets	238.802	322.406

13.3 Useful lives and depreciation rates for the meat segment

	Animals	Useful life in months	Useful life in years
Birds	Hens, roosters and older chickens (grandfathers and grandmothers), breeders	16 months	1.3 years
	Breeder turkeys	14.5 months	1.2 years
Pigs	Females (grandmothers)	10 months	0.8 year
	Males (grandfathers)	12 months	1 year
	Breeders	13 months	1.1 years

tg13.4 Gross book value and depreciation of non-current biological assets

	03.31.2022			12.31.2021		
	Gross value ThUS\$	Accumulated depreciation ThUS\$	Net value ThUS\$	Gross value ThUS\$	Accumulated depreciation ThUS\$	Net value ThUS\$
Meat segment	40.219	-14.552	25.667	41.608	(15.447)	26.161
Aquaculture segment	40.258	0	40.258	38.515	-	38.515
TOTAL	80.477	(14.552)	65.925	80.123	(15.447)	64.676

13.5 Physical quantities by biological asset groups

Period	MEAT SEGMENT			AQUACULTURE SEGMENT		
	Biomass (kg)	Units	Sale (kg) (*)	Biomass (kg)	Units	Sale (kg) (*)
December 2021	135.945.539	27.773.272	948.036.598	102.769.126	159.106.918	153.787.174
March 2022	134.171.291	26.686.841	221.849.920	79.396.880	121.148.913	42.145.337

(*) Sales volumes are measured from January 1 to the close of the indicated month.

The biological assets recorded at production cost for the meat segment were not impaired, as of the date these consolidated financial statements were issued, in accordance with IAS 41.

14. CURRENT TAX ASSETS AND LIABILITIES

Current and non-current tax assets and liabilities as of March 31, 2022 and December 31, 2021 are as follows:

14.1 Current and non-current tax assets

	Current		Non-current	
	03.31.2022	12.31.2021	03.31.2022	12.31.2021
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Monthly provisional payments for the period (a)	6.393	28.415	-	-
Monthly provisional payments for prior years	24.551	869	-	-
Other credits	1.013	569	-	-
VAT recoverable	16.624	20.678	-	-
Exporters VAT	27.514	40.115	-	-
Training credits	1.556	1.914	-	-
Austral law credits	-	-	50.537	45.649
Total	77.651	92.560	50.537	45.649

(a) These are monthly provisional tax payments less the corresponding corporate income tax provision, by legal entity.

14.2 Current tax liabilities

	Current	
	03.31.2022	12.31.2021
	ThUS\$	ThUS\$
Income tax provision	5.574	
Income tax credits (a)	(1.148)	
Subtotal current tax liabilities for 2021	4.426	
Corporate income tax provision	33.076	67.947
Tax on disallowed expenditure	-	-
Income tax credits (a)	(18.794)	(57.780)
Subtotal current tax liabilities for years	14.282	10.167
Total current tax liabilities	18.708	10.167

(a) These are primarily provisional monthly income tax payments.
There were no non-current tax liabilities as of March 31, 2022 and December 31, 2021.

15. CONSOLIDATED FINANCIAL STATEMENTS

15.1. Financial information

The consolidated financial statements include the financial statements of the parent company and its controlled subsidiaries. Information regarding subsidiaries as of March 31, 2022 and December 31, 2021 is as follows.

Balances as of March 31, 2022

Chilean ID number	Company	Country	Relationship	Functional Currency	% Share		Current assets	Non-current assets	Current liabilities	Non-current liabilities	Equity	Revenue	Net Income (Loss)	Income tax expense	Capital expenditure	Net Income (loss) before tax

15.2 General information regarding the principal subsidiaries

Agrícola Super Ltda. (Formerly Agrícola Super Pollo Ltda.) was constituted on February 12, 1982 before the Notary Public Mr. Sergio Rodríguez Garcés. The company's aim is to operate and market directly or through other people all manner of movable goods, especially those related to food and agriculture; to manage, operate, market directly and through other people all manner of agricultural, farm, forestry, fruit and general agro-industrial property; to provide services in general, and any other business that the shareholders agree.

Agrosuper Comercializadora de Alimentos Limitada was incorporated by public deed on April 10, 1990, before Notary Public Mr. Aliro Veloso Muñoz. The company's aim is to purchase, sell, market and distribute directly, indirectly or through a third party, for itself or on behalf of a third party, all manner of goods and foods; to provide services in general, and any other business that the shareholders agree.

Agrocomercial AS Limitada was incorporated on August 6, 2002 by public deed before Santiago Notary Public Mrs. Antonia Mendoza Escalas. The company's aim is to acquire, market and sell poultry, pigs and animals in general; to acquire, manage and operate its own property or that of third parties, and to operate agro-industrial businesses. During February 2012, Agrocomercial AS Limitada became the parent company for the Group businesses in the meats segment.

Procesadora de Alimentos del Sur Limitada (formerly Faenadora Rosario Limitada) was incorporated on July 13, 2000 as a limited liability company, by public deed before Notary Public Mrs. Antonia Mendoza Escalas. The company's aim is to process and conserve in refrigeration meats and complementary products from poultry, cattle and animals in general, such as pigs, sheep, cattle and their by-products; to operate agro-industrial establishments and refrigerators that process and preserve meat in general and their by-products; to market, distribute, acquire, import and export, either directly or through third parties, owned meat products or those of third parties, as by-products, and to provide services in general.

Faenadora Lo Miranda Limitada was incorporated on August 4, 1993 as a limited liability company by public deed, before Notary Public Mr. Felix Jara Cadot. The company's aim is to process, conserve in refrigeration, distribute, import and export meat and complementary products such as poultry, cattle and animals in general; to operate agro-industrial establishments and refrigerators to process meat in general; to provide services in general, and any other business that the shareholders agree.

Faenadora San Vicente Limitada was incorporated on March 1, 1994. The company's aim is to process, conserve in refrigeration, market, distribute and import its own poultry and by-products or those of third parties; to provide services in general, and any other business that the shareholders agree.

Elaboradora de Alimentos Doñihue Limitada was incorporated on January 9, 1989. The company's aim is to prepare sausages and cured meats.

Pesquera Los Fiordos Limitada was incorporated on October 25, 2010 through the division and amendment of Agrícola Agrosuper S.A. Pesquera Los Fiordos Limitada is the parent company for the Group businesses in the aquaculture segment. On December 28, 2020, it was dissolved by absorption into Inversiones Salmones Australes.

Exportadora Los Fiordos Limitada was incorporated on January 9, 1989 by public deed, before Notary Public Mr. Aliro Veloso Muñoz. The company's aim is to extract, farm and fish for anything that lives in water; to freeze, conserve, prepare and transform it; to explore the fishing industry in general and its derivatives; to prepare fishmeal and fish oil.

Sopraval S.A. was incorporated by public deed on July 20, 1967, when it was named Sociedad de Productores Avícolas de Valparaíso Limitada. On December 31, 1992 the company amended its statutes to become a privately held corporation, amending its name from Sopraval Limitada to Sopraval S.A. Subsequently, on March 22, 1993 it became a publically held corporation and was registered on the Securities Registry under number 449, and subject to regulation by the Chilean Superintendence of Securities and Insurance. Currently the company has its registered office at J. J. Godoy "La Calera", in Valparaíso Region, Chile. On August 29, 2011, the subsidiary Sopraval S.A. requested the voluntary cancellation of its registration in the Securities Register held by the Superintendence of Securities and Insurance. The company's aim is to farm poultry, to produce turkey meat and prepare turkey sausages. On June 1, 2020, it was changed into a simplified limited liability company.

The foreign subsidiaries Agro América LLC, Agro Europa SPA, Alimentos Euroagro SL, Inversiones Eurosuper SL, Productos Alimenticios Super Limitada, Andes y Asesorías y Servicios Limitada, Andes Asia INC, Agrosuper Asia Limited, Agrosuper Brasil Representação de Productos Alimenticios Limitada, and Agrosuper Shanghai Limited aim to import, sell and distribute food products derived from chicken, turkey, pork, beef, salmon and generally any food product; to broker such products; and to represent other companies and their products, brands and licenses.

The Chilean Identification Number of Empresas AquaChile S.A. is 86,247,4007. It was originally formed as a privately held company under the name Fischer Hermanos Limitada, through a public deed dated July 20, 1979, granted by the Coyhaique Notary of Mr. Patricio Olate Melo. An extract of this public deed was recorded in the Commercial Registry of the Coyhaique Property Registrar on page 38 number 34 and published in the Official Gazette on August 3, 1979. It aims to produce and sell salmon, by participating in the entire production chain, and is currently the largest company in the Chilean salmon industry.

16. EQUITY METHOD INVESTMENTS IN ASSOCIATES

16.1 Details of investments in associates

As of March 31, 2022 and December 31, 2021, the investment in associates was Puerto Las Losas S.A., as follows:

As of March 31, 2022

Total	584.407	(31.903)	552.504

- (a) As of March 31, 2022 and December 31, 2021, these are mainly brands owned by Empresas AquaChile and recognized at their fair value as of their acquisition date, according to a purchase price allocation report (PPA) performed by an independent third party. These brands have been assigned an indefinite useful life, as a result of long-term business plans and business forecasts.

The Company has no pledges or restrictions on intangible assets.

There are no contractual commitments for the acquisition of intangible assets.

17.2 Movements in intangible assets other than goodwill

Movements of identifiable intangible assets as of March 31, 2022 and December 31, 2021 are detailed as follows:

As of March 31, 2022	Mining Concessions ThUS\$	Aquaculture Concessions ThUS\$	Water Rights ThUS\$	IT Projects ThUS\$	Brands ThUS\$	Other Intangible assets ThUS\$	Total ThUS\$
Opening balance as of January 1, 2021	294	452.228	11.898	30.250	59.934	3.040	557.644
Additions	-	-	-	1.023	-	-	1.023
Amortization	-	-	-	(1.311)	-	(1)	(1.312)
Other increases (decreases)	-	-	-	(645)	-	-	(645)
Closing balance as of September 30, 2021	294	452.851	11.898	26.810	57.433	2.284	551.570

As of December 31, 2021	Mining Concessions ThUS\$	Aquaculture Concessions ThUS\$	Water Rights ThUS\$	IT Projects ThUS\$	Brands ThUS\$	Other Intangible assets ThUS\$	Total ThUS\$
Opening balance as of January 1, 2020	294	452.228	11.898	30.250	59.934	3.040	557.644
Additions	-	623	-	5.212	(2.501)	-	3.334
Amortization	-	-	-	(6.385)	-	(80)	(6.465)
Other increases (decreases)	-	-	-	(1.334)	-	(675)	(2.009)
Closing balance as of December 31, 2020	294	452.851	11.898	27.743	57.433	2.285	552.504

17.3 Amortization of intangible assets other than goodwill

Intangible assets with indefinite useful lives are tested for impairment annually either as an individual asset or as a cash generating unit (CGU).

Intangible assets with finite useful lives are amortized over their useful life and are tested for impairment each time there is an indication that the intangible asset may be impaired. The amortization period and amortization method for an intangible asset with a finite useful life are reviewed at least at every reporting date.

The amortization periods for intangible assets are:

The SAP IT Project is expenditure on the SAP Project, which will be depreciated on the basis of its returns and estimated usage.

The definition of identifiable assets arising from the acquisition of Sopraval S.A., recognized the Sopraval brand, which is not being amortized because its useful life is indefinite, according to independent third parties.

17.4 Research and development expenditure

Research and development expenditure for the period is as follows:

Research and Development Expenses

	03.31.2022 ThUS\$	03.31.2021 ThUS\$
Meat	429	276
Aquaculture	293	432
	722	708

These disbursements were amortized during the period.

18. GOODWILL

18.1 Goodwill

Goodwill as of March 31, 2022 and December 31, 2021 is detailed as follows:

March 31, 2022

Investor	Underlying asset.	03.31.2022 Goodwill ThUS\$

Total		379.380	-	-	379.380

18.3 Acquisitions

(a) Former Comercial Geiser S.A.

This acquisition integrated into the Group the distribution of its products in the north of Chile, where the acquired Company (and which was absorbed by subsidiary Agrosuper Comercializadora de Alimentos Ltda.) operated between the I and IV region.

Main reasons for this business combination:

The acquisition was part of the Group's business plan to integrate and control the distribution of products sold in the north of Chile. This acquisition meets the definition of IFRS 3 "Business Combinations", as the acquisition is associated with a business unit.

Factors resulting in goodwill:

Goodwill is mainly the synergy arising from integrating the distribution and logistics business unit for Agrosuper products, which results in distribution cost efficiencies and a better understanding of customer's requirements in the north of Chile.

(b) Inversiones Sagunto S.A. and Sopraval S.A.

Main reasons for this business combination:

The acquisition was part of the Group's business plan to integrate and control the production and marketing of agricultural products associated with the turkey business. This acquisition meets the definition of IFRS 3 "Business Combinations", as the acquisition is associated with a business unit.

Factors resulting in goodwill:

Goodwill represents the excess acquisition cost over the fair value of the Company's share in the identifiable assets, liabilities and contingent liabilities at the acquisition date of Sopraval S.A. It is recorded at acquisition cost less accumulated impairment losses.

Goodwill is not amortized, but at each reporting date the respective investment is evaluated for evidence of impairment that might reduce its recoverable value to below its book value, which would trigger an impairment provision.

(c) Empresas AquaChile S.A. and its subsidiaries

In January 2019, through a Public Offering process of share acquisition, Agrosuper acquired 99.71% of the Company Empresas AquaChile S.A. and subsequently directly and indirectly acquired the remaining 0.29%. Today, Agrosuper owns 100% of the company's shares. This purchase is part of the business plan of the Group, which seeks to consolidate its position in the salmon business as the largest national producer and exporter and the second largest producer worldwide through the integration of Empresas AquaChile S.A. with the other existing salmon businesses.

The fair value of the purchase amounted to ThUS\$ 851,375.77

Its financial statements as of December 31, 2018 have been restated to include the fair value of its biomass calculated using a discounted cash flow method that recognized a higher biomass fair value of ThUS\$ 88,702, which was clarified as of the date of the takeover of Empresas AquaChile S.A. by Agrosuper S.A. in accordance with Letter 444 issued by the Financial Market Commission on biomass acquired in a business combination and its impact on the calculation and allocation of the purchase price or PPA.

18.4 Impairment assessment

Goodwill allocated to the CGUs detailed in note 18.2 is tested for impairment annually, or more frequently if there are signs of potential impairment. These signs may include a significant change in the economic environment affecting the business, new legal provisions, operating performance indicators or the disposal of a significant portion of a CGU. Any impairment loss is recognized for the amount that exceeds the recoverable amount of the CGU. The recoverable amount of each CGU is determined as the higher of its value in use or fair value less costs to sell.

Management believes that the value in use approach, determined using the discounted cash flow model, is the most reliable method for determining the recoverable amounts of the CGUs..

The critical variables used in the assessment model, where historical information is considered, a five-year projection and a perpetuity, are as follows.

- (a) Projection period and estimated cash flows: Management considers that the projection model of income, expenses and cash outflows considers a 5-year horizon plus perpetuity. To determine the value in use, it has used cash flow projections over the time horizon described above, considering the main variables of the historical cash flows of the CGUs based on financial statements, strategic production and slaughtering plans and the most recent approved budgets.
- (b) A base scenario has been used to forecast these cash flows with an estimated 5-year average annual EBITDA growth rate of 4.9%. 2019 has been used as the base year as it predates COVID-19, and perpetual growth has not been considered.
- (c) Discount rate; The WACC (Weighted Average Cost of Capital) rate was constructed using the following assumptions:

Risk-free rate: corresponds to the arithmetic average of the data series of 10-year treasury bond rates in the US (Bloomberg Index) between January and March 2021. and the most recent approved budgets.

Equity Risk Premium: obtained from the database published by Aswath Damodaran applicable to Chile.

Levered Beta (Bl): Beta used by Morgan Stanley for asset valuation of the target industries of the CGUs evaluated in 2021.

Country Risk Premium: according to the internal risk basis of the countries for December 2021, by Aswath Damodaran.

Tax Rate: equivalent to 27% as determined by the Chilean Tax Authority.

Equity Rate: calculated with the CAPM model, using as input the levered beta, risk-free rate and market risk premium.

Debt Ratio: equivalent to Agrosuper's average debt ratio as of March 01, 2022.

Debt-to-equity ratio (D/E): corresponds to the structure of the company's financial debt over Agrosuper's market capitalization as of March 31, 2022.

The most sensitive variables in these cash flow projections are the discount rates applied in the determination of the net present value and the sales volumes and prices used in the construction of the projected cash flows.

Meat Segment

After valuing the cash flows associated with Comercial Geiser S.A. and Sopraval SpA. over a 5-year time horizon, a value in use greater than the book value of the brand, goodwill and fixed assets was determined, therefore it is estimated that there is no impairment.

Aquaculture Segment:

After performing the valuation of the cash flows associated with Empresas AquaChile S.A, over a 5-year time horizon, a value in use greater than the book value of the brand, goodwill and fixed assets was determined, therefore it is estimated that there is no impairment.

19. PROPERTY, PLANT AND EQUIPMENT

19.1 Description:

The net and gross values of Property, Plant and Equipment as of March 31, 2022 and December 31, 2021 are detailed by class as follows:

NET VALUES	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Property, plant and equipment, net		
Land	176.882	188.126

19.3 Additional information

(a) Interest capitalization

The Company and its subsidiaries capitalized interest in Property, plant and equipment, in accordance with the IAS 23.

	01.01.2022 to 03.31.2022	01.01.2021 to 12.31.2021
	ThUS\$	ThUS\$
Capitalized financial costs	81	353
Average capitalized interest rate	1,29%	1,77%

(b) Insurance

The Company and its subsidiaries have taken out insurance policies to cover possible risks to Property, Plant and Equipment as well as possible claims related to their businesses. These policies sufficiently cover the risks to which they are exposed.

(c) Pledges and mortgages associated with Property, plant and equipment

The Agrosuper Group don't have pledges and mortgages on Property, Plant and Equipment.

(d) Commitments for future purchases

The Agrosuper group has no contractual commitments for the future acquisition of Property, Plant and Equipment.

(e) Depreciation expense

Depreciation is calculated on a straight-line basis over the respective useful life of the asset.

This useful life is based on natural expected deterioration and technical or commercial obsolescence, due to changes or improvements in production and changes in market demand for the products produced by these assets.

The residual value and useful life of assets are reviewed, and adjusted where necessary, at each reporting date

The charge to the income statement for depreciation on Property, plant and equipment is as follows:

	03.31.2022 ThUS\$	03.31.2021 ThUS\$
In cost of sales	27.892	31.540
In administrative expenses	894	913
In other non-operating expenses	6.880	6.237
Total	35.666	38.690

(f) Cost of dismantling, withdrawal or rehabilitation

The Agrosuper Group has no contractual obligations to withdraw, dismantle and rehabilitate any of its facilities as of March 31, 2022 and December 31, 2021, and therefore has no provisions for these costs.

(g) Assets temporarily out of service

The Agrosuper Group has Property, Plant and Equipment that is temporarily out of service as of March 31, 2022. This is machinery and equipment at the Huasco agro-industrial complex amounting to ThUS\$ 364, which is being relocated to other facilities according to the Company's reuse plan.

20. CURRENT AND DEFERRED INCOME TAXES

20.1 Income tax recognized in net income for the year

	03.31.2022 ThUS\$	03.31.2021 ThUS\$
Current tax expense (income)	33.076	28.923
Total net current tax expense (income)	33.076	28.923
Deferred tax expense (income)		
Tax expense adjustment for prior year	(1.615)	108
Effects of change in rates	-	-
related to creation and reversal of temporary differences	(8.089)	14.909
Others	(1.730)	(3.527)
Total net deferred tax income (expense)	(11.434)	11.490
Total income tax income (expense)	21.642	40.413

20.2 Reconciliation of effective tax rate

A reconciliation of the legal tax rate in Chile and the effective tax rate applicable to the Company and its subsidiaries is as follows:

	03.31.2022 ThUS\$	03.31.2021 ThUS\$
Reconciliation of income tax expense using the statutory rate with income tax expense using the effective rate	21.642	40.413
Tax effect of rates in other jurisdictions	207	152
Tax effect of deductible expenses	-	2
Tax effect of non-deductible expenses	(172)	(234)
Tax effect of indexation	(3)	(185)
Others	(32)	265
Total tax expense (income)	21.642	40.413

20.3 Deferred taxes

Deferred tax assets and liabilities as of March 31, 2022 and December 31, 2021 are detailed as follows:

Deferred taxes relating to:

	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Provision for the indefinite strike at the Huasco agro-industrial complex	45.139	45.754
Tax goodwill compared to financial goodwill	716	716
Employee benefits provision	1.434	1.512
Tax losses	131.498	137.995
Other provisions	14.952	21.479
Vacation provisions	3.391	3.224
Allowance for doubtful receivables	15	15
Offset deferred taxes (a)	-98.640	(106.324)
Total deferred tax assets	98.505	104.371
Difference between financial and tax PP&E	172.444	168.934
Intangible	69.537	72.561
Animals born in the field	55.999	55.050
Indirect manufacturing expenses	46.816	47.457
Deferred expenses	10.813	11.299
Fair value of biological assets and inventories	69.472	92.841
Collective agreement bonus	2.065	2.334
Other events	9.015	7.758
Fair value IRS Swap	11.285	21.543
Offset deferred taxes (a)	(98.640)	(106.324)
Total deferred tax liabilities	348.806	373.453

- a) The deferred tax assets and liabilities of each subsidiary have been offset, leaving only a net deferred tax asset or liability position in the financial statements.

There is no valuation provision on deferred tax assets at the reporting date because it is likely that deferred tax assets will be completely recovered

20.4 Deferred Taxes

Movements on deferred tax assets and liabilities are as follows:

Deferred tax movements	Assets (Liabilities) ThUS\$
Balance as of January 1, 2021	
Increase (decrease) for deferred taxes on net income	(304.427)
Increase (decrease) for deferred taxes on comprehensive income	35.345
Balance as of December 31, 2021	(269.082)
Increase (decrease) for deferred taxes on net income	36.604
Increase (decrease) for deferred taxes on comprehensive income	(17.823)
Balance as of March 31, 2022	(250.301)

21. OTHER CURRENT AND NON-CURRENT FINANCIAL LIABILITIES

Other current and non-current financial liabilities as of March 31, 2022 and December 31, 2021 are detailed as follows:

	Current		Non-current	
	03.31.2022 ThUS\$	12.31.2021 ThUS\$	03.31.2022 ThUS\$	12.31.2020 ThUS\$

Total non-current	945.288	118.643	1.063.931
Total	1.720.841	120.987	1.841.828

22.3 Hedging instruments

Agrosuper S.A. and its subsidiaries purchases interest rate and exchange rate hedges, in accordance with risk management policy.

The Company classifies its hedges as cash flow hedges:

Effective hedges and ineffective hedges: The Company uses hedges to cover the risk of volatility in cash flow attributable to changes in interest rates or exchange rates on loans with variable interest rates or in a currency other than the US dollar.

The effective part of changes in value of hedging instruments is recorded temporarily in equity, until the envisaged transactions occur. The ineffective part is recorded directly in the statement of net income.

The details of hedging contracts and their hedged items are as follows:

Bank	Hedging instrument	Transaction						Hedge	Notional ThUS\$
		number	Currency	Rate received	Rate paid	Hedged Item			
Banco de Chile	Cross Currency Swap	4000053	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	24.082	
Banco BBVA	Cross Currency Swap	4000054	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	24.035	
Goldman Sachs	Cross Currency Swap	4000057	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	49.358	
Banco de Chile	Cross Currency Swap	4000005	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	85.267	
Bank of America	Cross Currency Swap	4000005	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	101.754	
JP Morgan	Cross Currency Swap	4000006	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	55.665	
JP Morgan	Cross Currency Swap	4000007	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	55.830	
Goldman Sachs	Cross Currency Swap	4000008	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	101.321	
Goldman Sachs	Cross Currency Swap	4000009	UF/USD	Fixed rate	Fixed rate	Loans payable	Cash flow	102.066	
Banco de Chile	Cross Currency Swap	4000008	UF/USD	Fixed rate	Fixed rate	Bonds payable	Cash flow	-	
								599.378	

22.3 a) Assets and liabilities for hedge instruments

Financial derivative transactions that qualify as hedge instruments resulted in recognizing the following assets and liabilities in the statement of financial position as of March 31, 2022 and December 31, 2021:

	March 31, 2022			
	Assets		Liabilities	
	Current ThUS\$	Non-current ThUS\$	Current ThUS\$	Non-current ThUS\$
Effective hedges	6.603	4.448	5.024	31.697
Cash flow hedge nota 5.1	-	4.448	-	31.697
Cash flow hedge nota 5.2	6.603	-	5.024	-
Ineffective hedges:	-	-	-	-

22.4 Fair value assets and liabilities

Fair value is generally understood to be the price of a financial instrument at a particular time in a free and voluntary transaction between interested parties, duly informed and independent of each other. The fair value of financial instruments without available market prices have been estimated using current values or other valuation techniques. These techniques are significantly affected by the underlying assumptions, including the discount rate and the prepayment assumptions. Therefore, the estimates of fair value for some financial assets and liabilities cannot be justified in comparison with independent markets and in many cases they cannot be immediately placed.

The estimates of fair value that follow do not attempt to estimate the value of the Company's returns on its business, nor future business, so do not represent the value of the Company as a going concern.

The methods used to estimate the fair value of its financial instruments are described as follows:

(a) Cash and mutual funds:

The book value of cash and mutual funds in banks is approximately their estimated fair value given their short-term nature.

(b) Transactions pending settlement (asset and liability)

The book value of transactions in foreign currencies is approximately their estimated fair value given their short-term nature.

(c) Financial investments:

The estimated fair value of interim consolidated financial instruments is calculated using market prices or prices quoted for financial instruments with similar characteristics.

(d) Financial instruments

The fair value of financial instruments is the estimated amount that the Company expects to receive or pay to terminate those contracts or agreements, taking into account current interest rates and prices.

22.5 Fair value hierarchies

Financial instruments recognized at fair value in the statement of financial position are classified into the following hierarchies:

- (a) Level 1: Quoted (unadjusted) price in an active market for identical assets and liabilities.
- (b) Level 2: Indications other than quoted prices included in level 1 that are observable for assets or liabilities, either directly (i.e. as a price) or indirectly (i.e. as a derivative of a price).
- (c) Level 3: Indications for assets or liabilities that are not based on observable market information (non-observable indications).

Financial assets and liabilities at fair value as of March 31, 2022 and December 31, 2021 are detailed as follows:

Financial instruments measured at fair value

25. EQUITY

25.1 Share capital

Company incorporation

Agrosuper S.A. was incorporated by public deed on October 29, 2010, under the name Agrosuper S.A. and its Chilean identification number is: 76,129,263-3. Its registered office is at Camino la Estrella 401, Office 56, Sector Punta de Cortes, Rancagua.

The shareholders at the date of incorporation were Promotora Doñihue Ltda. and Agrocomercial El Paso S.A.

The share capital of Agrosuper S.A. was amended on January 25, 2021, in order to convert it from Chilean peso to US dollar, due to a change in the functional currency of the Company. Accordingly, its share capital became ThUS\$ 1,342,549, divided into 23,500,376,756 common shares.

The summary of subscribed and paid-in shares is as follows:

Date	Description	Number of Shares
10-29-2010	Constitution Agrosuper S.A.	3.372.525.709
12-15-2010	Capital increase	52.053.605
12-27-2010	Capital increase	13.401.715.543
1-14-2019	Capital increase	6.674.081.899
Total subscribed and paid shares		23.500.376.756

25.2 Capital management

The Company's capital management objective is to be appropriately capitalized, to ensure that it has access to financial markets to develop its medium and long-term goals, thus optimizing shareholder returns and maintaining a sound financial position.

25.3 Dividend policy

The Company's statutes and Article 79 of Corporate Law establishes that the Company should annually distribute a mandatory dividend equivalent to 30% of the net distributable income for the year, provided that there were no losses for the year or accumulated losses from previous years, unless unanimously agreed otherwise by holders of all the issued shares at an Annual General Shareholders meeting.

The Company's Board agreed to provide a quarterly dividend of 30% of net income for the financial year, subject to the Company's final net distributable income, calculated in accordance with Circular 1945 dated September 29, 2009. At the Board session held on March 27, 2020, ratified by the ordinary shareholders' meeting held on April 29, 2020, it was agreed to approve the policy for

the calculation of the Company's distributable profit to be considered for the calculation of dividends and profit sharing. It was agreed to exclude the following from the results:

- The unrealized income related to the recording of biological assets at fair value, regulated by the accounting standard "IAS 41", being returned to the net income upon realization. For these purposes, the portion of said increases in fair value corresponding to the assets sold or disposed of by any other means will be understood as realized.
- The unrealized income generated in the acquisition of other entities and, in general, that unrealized income arising from the application of paragraphs 24, 39, 42 and 58 of the accounting standard "IFRS 3", referred to operations of business combinations.

Interim, prospective and final dividends are deducted from Total Equity as soon as they are approved by the competent entity, which in the first case is normally the Company's Board of Directors and in the second and third cases, are the shareholders at the Ordinary General Shareholders meeting.

25.4 Shareholder detail

The Company's shareholders are detailed as follows:

Chilean ID number	Shareholders	Shares as of	
		03.31.2022	% Interest
78,407,260-6	Promotora Doñihue Ltda.	23.143.171.029	98,48%
96,733,090-6	Agrocomercial El Paso S.A.	357.205.727	1,52%
Total		23.500.376.756	100,00%

25.5 Earnings per share

Basic earnings per share is calculated by dividing the net income attributable to owners of the controller by the weighted average number of shares outstanding during the year:

	03.31.2022	12.31.2021
Net income attributable to owners of the parent company ThUS\$	58.827	410.153
Basic weighted average number of shares	23.500.376.756	23.500.376.756
Basic earnings per share (US\$/share)	0,0025	0,0173

25.6 Net distributable income

The Ordinary Shareholders' Meeting held on April 29, 2020 ratified the resolution adopted at the Board meeting held on March 27, 2020, which approved the Policy for the determination of the Company's distributable net income to be considered for the calculation of dividend payments for the period 2020. This is determined on the basis of the profit effectively realized, eliminating any relevant variations in the value of assets and liabilities that have not been realized, which are returned to the calculation of the net profit for the year in which such variations are realized.

The calculation of the interim dividend provision is as follows:

Distributable net profit	03.31.2022 ThUS\$
Profit attributable to owners of the parent company before profit sharing	77.219
Unrealized gains, related to fair value adjustments of biological assets	38.197
Deferred tax on unrealized gains	(10.313)
Distributable net profit	105.103
Dividend policy of 30%	31.531

25.7 Other reserves

The detail of other reserves included in equity is as follows:

Description	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Exchange differences on conversion reserve (a)	116.242	115.792
Cash flow hedge reserve (b)	(41.731)	(89.923)
Other reserves:		
Effect of business combinations (c)	(50.553)	(50.553)
Other reserves	(8.863)	(8.859)
Total	15.095	(33.543)

(a) Exchange differences on conversion reserve

This reserve is the effect of converting the financial statements of subsidiaries whose functional currency is not the Chilean peso, and generating exchange differences on conversion.

(b) Cash flow hedge reserve

Under IFRS, changes in the fair value of financial instruments designated as cash flow hedges should be recorded in an equity reserve net of adjustments for any ineffective portion.

(c) Effect of business combinations under common control

	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Net effect of the capital decrease Exportadora Los Fiordos Ltda (1)	(53.727)	(53.727)
Effect on deferred tax of the merger with Comercial Geiser S.A. (2)	3.174	3.174
Total net effect of business combinations	(50.553)	(50.553)

1. This effect is due to the decrease in equity at Exportadora Los Fiordos Limitada during 2016, due to the withdrawal of the partner Inversiones VC Limitada, who withdrew its capital contribution. This caused an increase in the interest of Agrícola Agrosuper S.A. (merged with Agrosuper S.A.) in Exportadora Los Fiordos Limitada from 51.49% to 99.99%.
2. This is the effect of deferred taxes on the merger of Comercial Geiser S.A. with Agrosuper Comercializadora de Alimentos Limitada in 2010.

26. NON-CONTROLLING INTERESTS

Non-controlling interests as of March 31, 2022 and December 31, 2021 are detailed as follows:

Subsidiary	Country	Minority shareholder	As of 03.31.2022	
			Non-controlling interest	
			In net income ThUS\$	In equity ThUS\$
Sopraval SpA	Chile	Others	1	484

Centro de Innovacion Aquainnovo-Biomar S.A.	Chile	Others	1	2.098
		Total	(313)	2.704

Subsidiary		Minority shareholder	As of 12.31.2021	
			Non-controlling interest	
			In net income ThUS\$	In equity ThUS\$
Sopraval S.A.	Chile	Others	11	472
Agroeuropa SPA	Italy	Balestrero G & G SRL	830	1.167
Centro de Innovacion Aquainnovo-Biomar S.A.	Chile	Others	(33)	2.184
Grupo ACI S.A.	Costa Rica	Others	(1.044)	1.148
		Total	(236)	4.971

27. SEGMENTS

Segmentation criteria

The Agrosuper Group has defined its business segments with a focus on its priorities, so they consist of meat, aquaculture and others.

Since the Group's corporate organization coincides with its segments, the allocations in the segment information presented below are based on the financial information of the companies included in each segment, except for the parent company's transactions, such as cash management, financing and hedging instruments, with their respective effects on exchange differences and financial costs, which are allocated using criteria defined by management and reviewed quarterly.

The segment information presented below is for the interim statements of income for the period ended March 31, 2022 and December 31 and for the interim statements of financial position as of March 31, 2022 and 2021.

Statement of Income - For the period ended March 31, 2022

34.1 Restrictions

Agrosuper S.A. has agreed with bond holders and financial institutions the following financial covenant measured on the basis of its financial statements:

Maintain a debt ratio of less than 1.0 times measured as Net Financial Liabilities divided by Equity, throughout the bond period and until their maturity date.

The Company complied with all its management restrictions and financial indicators as of the reporting date, as described in these loan contracts and their respective amendments.

Bonds

Agrosuper S.A. has agreed the following financial covenants with bond holders, measured using its interim financial statements.

- Maintain a debt ratio of less than 1, measured as Net Financial Liabilities divided by Equity, throughout the bond period.
- Not to sell one or more essential assets in one or a series of transactions, which represent more than 10% of the total assets of the bond issuer.

As of March 31, 2022 and December 31, 2021 the Company is in full compliance with the aforementioned restrictions as follows:

	03.31.2022 ThUS\$	12.31.2021 ThUS\$
Net financial obligations are equal to:	1.070.295	1.325.973
+ Other financial liabilities, current	97.335	403.903
+ Other financial liabilities, non-current	1.280.676	1.043.605
- Derivative assets, current	6.603	5.962
- Derivative assets, non-current	4.448	-
- Cash and cash equivalents	296.665	121.535
Equity is equal to:	2.405.080	2.329.537
+ Equity attributable to owners of the parent company	2.402.376	2.326.446
+ Equity attributable to non-controlling interests	2.704	3.091
Net financial obligations / Equity <= 1.0	0,45	0,57

34.2 Lawsuits

The Parent Company and its Subsidiaries do not record provisions for lawsuits, since in the opinion of Management and its legal advisors, the different lawsuits described below have a higher probability of being favorable for the Company.

a) Judicial and Administrative Cases

a.1 Cases over ThUS\$245

There are other litigation cases for less than ThUS\$235 as of March 31, 2022 where the Group is the principal defendant.

35. EMPLOYEE HEADCOUNT

The distribution of employees at Agrosuper S.A., including information relating to subsidiaries by business, as of March 31, 2022 and 2021, was as follows:

	03.31.2022		12.03.2021	
	Total No.	Average for the period No.	Total No.	Average for the period No.
Executives	214	214	211	212
Professionals and managers	4.412	4.415	4.207	4.205
Technicians	675	669	672	675
Workers and other employees	12.101	12.077	12.300	12.306
Total	17.402	17.375	17.390	17.398

36. ENVIRONMENT

Concern for the environment has been a fundamental pillar in the Company's development, which has been evidenced by encouraging the efficient use of natural resources throughout the productive chain and incorporating the latest technology to minimize the external consequences of its business.

We are continually searching for mechanisms that help us to mitigate the external consequences of our business, and we have implemented a process that transforms pig slurry from a mixture of pig manure, urine and water into fertilizer for agricultural soils, called Biofertilizer.

The process requires using a network of pipes to transport pig slurry from the pig sties to modern and efficient water treatment plants, where the solid components are separated from the liquids. The treated water is used to clean the facilities and to irrigate agricultural land, while the solid parts are transformed into biofertilizer within a confined area to reduce the emission of unpleasant odors. This is a natural fertilizer that contains many nutrients and is used by small-scale farmers to fertilize their fields.

The Company has implemented a plan to reduce greenhouse gas (GHG) emissions, which includes measuring its carbon footprint, in order to mitigate the effects of climate change and reinforce its commitment to caring for the environment. Accordingly, we reduced our Scope 1 and 2 emissions by 4.2% in 2021, compared to the previous year.

The Company continually searches for solutions and technologies that efficiently manage its resources, and at the end of 2021 it signed an electricity supply agreement that will supply more than 50% of its electricity from clean, renewable sources.

The Company is also committed to responsible water management. It has high standards that focus on monitoring and reducing its consumption, and it has implemented projects and initiatives that reuse it. This has been replicated in neighboring communities, where improvement projects have been implemented by various Rural Drinking Water Committees (RWC) within communities that neighbor its production facilities.

The Company has terminated salmon farming in lakes, which means that 12 concessions in the Los Lagos and Aysén regions will no longer be used, which will contribute to sustainable development in the regions where the Company's aquaculture segment has production facilities. This decision was preceded by its investment in hatcheries on land and fitted with modern water recirculation and treatment systems, in order to more efficiently consume water.

Environmental expenditure as of March 31, 2022 and 2021 is detailed as follows:

Environmental expenditure	Cumulative	
	03.31.2022	03.31.2021
	ThUS\$	ThUS\$
Slurry treatment plants	17.538	16.156
Environmental Management	3.170	1.762
Total	20.708	17.918

These costs are mainly: Remuneration, production, maintenance and administration.

Environmental investments	Cumulative	
	03.31.2022	03.31.2021
	ThUS\$	ThUS\$
Health regulations	38	22
Total	38	22

37. COVID19 CONTINGENCY

In March 2020, the World Health Organization (WHO) classified COVID-19 as a global pandemic, consequently many countries implemented various measures to prevent infection among their inhabitants.

We created a committee, composed of the CEO of each business segment and the managers of each unit, with the objective of monitoring developments in the pandemic and implementing the measures required by the authorities at each stage, in order to protect the health of our employees and their families.

The food industry, and our company in particular, incorporates the highest standards of quality, safety and biosafety into its processes and products, such as hand washing, changing clothes when entering facilities and using personal protective equipment, such as gloves, masks and goggles.

The Company has followed the protocols and deadlines established by the health authority and has vaccinated 92% of its employees. Meanwhile Chile has vaccinated with full vaccination schedule more than 14 million people, according to information supplied by the country's health authority.

These measures have enabled us continually operate and to secure our supply chain, which is essential for the country and the Company, as we manufacture essential products. The company farms live animals, which require specific care, such as making and providing feed, assisting with births, and other care. It also operates the systems required to process meat and distribute its products.

Furthermore, food is not considered a source of COVID-19 infection, which has been widely ratified by international organizations, such as the USDA, the US Food and Drug Administration (FDA), and the European Food Safety Authority in the European Community.

38. MATERIAL EVENTS IN THE PERIOD

1. On January 20, 2022, Agrosuper S.A. reported a material event to the CMF that on that date the Company placed bonds on the international market for ThUS\$500,000 maturing on January 20, 2032, and with a *coupon* rate of 4.60%. This issue complies with Rule 144A and Regulation S of the Securities and Exchange Commission under the Securities Act of 1933 of the United States of America.
2. On March 29, 2022, Agrosuper S.A. reported a material event to the CMF that on that date an Extraordinary Board Meeting agreed to call an Annual General Shareholders' Meeting for April 18, 2022, to discuss the following matters:
 - a) Approve the annual report, financial statements and external auditor's report for the year ended December 31, 2021.

- b) Approve the dividends payable from earnings for 2021.
 - c) Approve the Director's remuneration for 2022.
 - d) Review the Board expenses for 2021.
 - e) Appoint the external auditors for 2022.
 - f) Select the newspaper for Company publications.
 - g) Review the transactions with related parties, in accordance with Chapter XVI of Law 18,046.
 - h) Any other business matters that lie within the scope of an Annual General Shareholders Meeting.
3. On March 29, 2022, Empresas Aquachile S.A. reported a material event to the CMF that on that date an Extraordinary Board Meeting agreed to call an Annual General Shareholders' Meeting for April 18, 2022, at 12:00 midday at the Company's offices at Cardonal Lote B, Puerto Montt, in order to address the following matters:
- a) Approve the annual report, financial statements and external auditor's report for the year ended December 31, 2021.
 - b) Approve the dividends for 2021.
 - c) Review the Company's dividend policy.
 - d) Approve the Director's remuneration for 2022.
 - e) Review the Board expenses for 2021.
 - f) Appoint the external auditors for 2022.
 - g) Select the newspaper for Company publications.
 - h) Review the transactions with related parties, in accordance with Chapter XVI of Law 18,046.
 - i) Any other business matters that lie within the scope of an Annual General Shareholders Meeting.

On March 31, 2022, Empresas Aquachile S.A. reported a material event to the CMF that on that date all the shares in the subsidiary GRUPO ACI S.A. and its subsidiaries in Costa Rica that are all engaged in the production and sale of tilapia, have been sold to AQUAFOODS GROUP S.A., a subsidiary of Industrias Martec incorporated in Puntarenas Province, Quepos, Costa Rica. It was reported that approval was obtained from the Costa Rican antitrust authority for this transaction on March 17, 2022. The price initially agreed was ThUS\$5,400, and a subsequent price adjustment of ThUS\$600, as stipulated in the sale agreement, brought the final price for the transaction and share transfer to ThUS\$6,000. The effect of this transaction on the income statement was a loss of ThUS\$36,989.

39. EVENTS AFTER THE REPORTING DATE

- 1) On April 18, 2022, Agrosuper S.A. reported a material event to the CMF that on that date an Annual General Shareholders' Meeting agreed the following:
 - a) Approved the Annual Report, Financial Statements and External Auditor's Report for the period ended December 31, 2021.
 - b) Appointed PricewaterhouseCoopers Consultores, Auditores y Compañía Limitada as external auditors to examine the financial statements for 2022.
 - c) Selected the electronic newspaper El Líbero for the Company's publications.
 - d) Distributed dividends from earnings for 2021 that totaled US\$203,591,500, with US\$39,537,750 payable from the balance of the minimum mandatory dividend and an additional dividend of US\$164,053,750 payable from earnings for 2021. This amount will be paid as of April 25, 2022, to accredited shareholders as of 24:00 midnight on April 19, 2022.

- 2) On April 18, 2022, Empresas AquaChile S.A. reported a material event to the CMF that on that date an Annual General Shareholders' Meeting agreed the following:
 - a) Approved the Annual Report, Financial Statements and External Auditor's Report for the period ended December 31, 2021.
 - b) Agreed not to distribute any dividends.
 - c) Appointed PricewaterhouseCoopers Consultores, Auditores y Compañía Limitada as external auditors to examine the financial statements for 2022.
 - d) Selected the electronic newspaper El Líbero for the Company's publications.

- 3) An Extraordinary Board Meeting was held on May 16, 2022, where the Directors approved the interim consolidated financial statements of Agrosuper S.A. and subsidiaries as of March 31, 2022, prepared according to the standards for the preparation and presentation of financial information, issued by the Financial Market Commission (CMF), in accordance with International Financial Reporting Standards (IFRS).

No other significant subsequent events have occurred between March 31, 2022, and the date of issuance of these interim consolidated financial statements.
